My life started in a little rent house on my Grandfather's farm [PATRICK BOGAN U] in Conway Co. Ark. in the Ozark hills. My Father owned a small farm, [STRICKLAND ASBURY U] but did not have his house finished at that time. Then after I came to live with them, they moved to their own place with a two room house with a pale yard fence & also a pale garden fence and a rail fence around the farm land. Father set out an orchard, & also a vineyard. I remember one yr they had so many peaches--after they had dried all they wanted they decided to put up a barrel full in acid. Then they fermented. So they gave them to the hogs then all the hogs went on a big drunk.

My Father's people were from N. Carolina. Father didn't like Ark for farming. He wanted more wide open space free of rocks & grubs. So he & 3 of his brothers decided to come to the wild & wooly west as it was called then. But Uncle David & Uncle Charley came on the [DAVID HARMON U] [CHARLES WESLEY U] yr before we did. So then Dad & Uncle Doc & Uncle Dan Lewallen, Mother's brother, sold their little Ozark farms & made over jets on their wagons. (they were like the ones on the wagon train on T.V.) So we started out. 3 wagons of us & driving their cattle. Some new calves appeared in the herd on the way & they would haul them a few days.

4462
4465

They had tents to camp in at night. It seems it rained a lot on the way. There was no such thing as a motel or tourist camp. They moved in March & when every thing was wet they would try to rent a building if they could make it to a town & we would lay over till the rain was over. Twice they found an old abandoned cabin in the woods. One place they made a fire in the fire place & then out of the loft jumped a big bob cat. He squalled & out the door he went. Mother & Aunt Liz were sure he would grab some of us children. Another one we stopped in had a stick & dirt chimney & it got on fire & they did some fast work to put it out.

We seemed to have traveled in woods country most of the time. The men killed lots of squirrels & other game along the way to help out with the meat problem. One evening Vergil Conley one of the boys Uncle Doc brought along to help drive cattle went so far from camp into dense woods that he got lost. But Uncle Dan had a big horn which

he started blowing & Vergil said he was never so happy in his life as when he heard that horn.

When it was dry we camped right out in the open. Cooked on camp fires made of sticks & logs. They raked up piles of leaves to make the beds on. They wanted to stir the leaves to make sure no snakes were there. They were tired enough to sleep anywhere. They wanted to sleep near the stock to look after them. They used every precaution. They were a little afraid the Indians would steal some of them. They always chained the work horses to the wagons. One night Mother heard a noise on the chain. She woke Father & told him some one was filing that chain. He grabed his Winchester & peeked out and it was only the old mule rubbing his nose & dragging the chain over the wagon tire. & of course the wagon tires were not rubber but hard metal. So it turned out that all their scares & worries were uncalled for. We crossed creeks & streams where there were no bridges. One river they had to ferry over, some of the cattle jumped over board & swam out. We were on the road about 6 weeks.

We finally arrived at Uncle Charley's at Wayne Okla. They lived in a dugout. The first we had seen. Father leased some land there. Built a little 2 room house. Put out a crop & sold it out that same spring, and moved over near Chickasha & leased some Indian land from old Choctaw Bill. There was a dugout already on it so we lived in it till this part opened up some over 2 years. How I wish someone had kept a diary then. But we had never heard of such a thing then. Or if I had started to write this while my Father was living, he had a good memory, he could have helped me out. But no use to cry over spilled milk. I was only 5 or 6 yrs old then & some of it is plain to me yet. They raised wonderful crops there at Chickasha & that is still a better farming area than this.

So in April of 1892 the Cheyenne & Arapaho reservation was opened to settlers. Then Father & his brother D.H. & his brother-in-law, 6247 *Will Skinner, Jesse Summers and Ed Cook started out to the line drawn East of the counties to be opened with Father's wagon and team. They camped along the line with thousands of others, in wagons, buggies, horseback & on foot. So at 10 a.m. April 19th the signal was given. The signal was the firing of guns along the line. My folks had decided to run to G county as it was then -- now Custer Co.

*WILLIAM OLIVER SKINNER

So the race was on. Some in wagons with family & all their possessions, some with loads of goods & groceries to start a store. Some with barrels of liquor to erect a saloon. Frank Filmore with his family & a printing press to start the Arapaho Bee in a tent. In A few days there came a hard rain & wind. It blew the tent down & scattered type in the mud. They gathered them all up -- washed the mud out & established the paper which ran till about 5 yrs ago.

So Father staked town lots in Arapaho & drove off S.E. & staked a claim. He and all his crowd except Uncle Will. He said he would not have the entire country if they gave it to him.

So the conflict was on to erect homes & improve this country which was nothing but prairie land, tall blue stem grass with plenty of timber along creeks & rivers. That summer of the opening the folks made a good crop near Chickasha & on the claim built a one room house & a dugout underneath & broke some sod land & planted some kafir corn & built a pole barn which made something to move into. After the first of the next yr he brought us to the place. We were so happy to get into a house we thought it a mansion. He hauled all his building material from El Reno or Minco which was our nearest market. When I look back at coming here, I think we children suffered more from it than the older ones because of no school & it was 2 yrs or a little over before they got the district organized & got a school. When they did there was just enough taxes payed in for a 3 month term of school in the spring of the yr. They had a church built before we had school. Then we had school in the church. The next yr they moved the school to a more central part of the neighborhood & had school in a dugout. We didn't have books. There were no libraries. They bought what books we had to have for school & that was about all. Our first S.S. & church was in a brush arbor up the creek from our house. But in a short while someone came to Uncle D.H. & told him the Indians were going on the war path & for all of us to go to Arapaho & fortify ourselves. Father was sick in bed & he refused to go but Uncle would not leave him. He said he would put a bed in the wagon & hitch up the team & Roxie could drive it & we would take him. So while they were getting ready, he got out of bed & got his gun & reloading outfit & we went & stayed a couple of days & when we got home he never

4462

went back to bed, scared it all out of him. But there were no hostilities, just a needless scare. And for the next few yrs the Indians were a great help to us.

The government issued them such things as wagons, harness, saddles, and numerous things -- also clothing. The Indian children were forced to go to school at Colony. It was a boarding school. They all went there & stayed during the school term then came back to camp during the summer. Then they would trade us their school clothes for meat, eggs, chickens, butter & we traded them lots of watermelons during the summer. When they came home they would lay off their clothes & put on a blanket.

There were no roads, except a wagon trail now & then & no bridges at all. For some money to get by on, Father built bridges all around over the county. They hauled all of their produce to El Reno. They had enough wheat and corn to grind into flour and meal for a yrs supply and they hauled it back. Their hogs they hauled to El Reno & cattle they sold to buyers at home. They traded some cattle to the Indians for beef wohaw, that's what they called it.

We had nothing to go to for entertainment. Only what we provided for ourselves. During the winter months, we had what they called literary. We children would memorize little poems to give & we had spelling bees and kangaroo courts & debates.

And during the summers, we fished a lot. All families would go together & we really caught fish then & we would fry fish in the shade of trees on a campfire & they sometimes invited some of the Indians to come & eat fish with us.

Then in about 1900, Dennis Flyn, our congressman, secured the passage of Free Homes bill which granted free homes to settlers. They had expected to pay $1.25 to $1.50 per acre.

Then in 1907 we were granted statehood & we became a state.

CHAPLE HILL METHODIST CHURCH

XID

One of the oldest churches in Custer, County, the Chaple Hill Methodist Church, had it's first meeting with only a brush arbor between the little hand-full of worshippers and the hot sun of an Oklahoma summer.

It was the summer of 1893 the first year after the territory was opened the small band of families living in the Chaple Hill vicinity organized the church. For a year they had been preoccupied with the pressing business of making a home here on these lonely prairies, with not even a meeting to go to on Sundays.

4462

That summer of 1893 they just couldn't stand it any longer. They didn't have a church nor any money to build one, but they did have a person in their midst--Rev. David Upchurch who had been in the Methodist ministry for years and who had even been District Superintendent back in Arkansas before he came to Oklahoma to file a claim. So they got Brother Upchurch to agree to do the preaching. They built a brush arbor on the Upchurch (Summers) land to serve as a shelter against the sun and split logs for their benches to sit on. Here they founded a church and Sunday School that has lived on down through the years.

This early history has been recalled by Mrs. S. A. Upchurch who now lives with her daughter Mrs. Flora Bodenhamer of Arapaho. She is a Sister-in-law to the Rev. David Upchurch and is the only charter member living and is with us today. When Mrs Upchurch was asked how many were there at that first meeting, she replied, 'Well, I could name them. There were us and our four children, Brother Upchurch and his wife and four children, my niece, Mrs. Jossy Summers, and her husband, Mr. and Mrs. Edd Cook and their family, I guess about twenty in all.'

[FLORA JANE U]

The little band started a church house in the fall of 1893 a little distance on up the creek from the brush arbor. The men did most of the work with a donation from the Church extension and contributions they managed to get together enough money for what had to be bought. With the coming of fall the work on the church stopped until spring, the arbor was abandoned and during the winter months services were held in Brother Upchurch;s home and a dug-out about one half mile east of the present site. The building was finished the following summer.

The next year this building was moved, due to its impractical location to the site on which this church now stands. This first church building was burned to the ground in January 1909. The fire started while services were being held one Sunday evening. It started from a defective stove pipe. The congregation set to work and carried out the organ and as many pews as they could. One man threw a lariat around the stove and drew it out with his pony. After that there wasn't anything to do but stand around and watch it burn to the ground.

The pioneers were hardy souls though and within a few months had built themselves another church. This church served the community until the fall of 1945 when it was torn down to build the church we are dedicating today. Lumber that could be salvaged and used was put in the new structure.

Contributions were made by many people that live in the community and surrounding territory. Mrs. Ben Goucher and Mr. Dick Goucher of Clinton were employed to over-see and lay the brick. The Fisher Brothers of Weatherford were hired to do plastering. All other work was donated by members and friends. The Chaple Hill school house was used for services during the construction of the building. Services were held in the new church by February, 1947.

Pews were ordered at this time and members patiently waited until December, 1948 before the order was filled. They were first used for the Christmas program of that year.

No official records could be found of the ministers serving our church until 1925, but we do want to give honorable mention to the two ministers who were in our midst in the earlier years. They were Rev. L. V. Rector who served as local minister and school teacher from 1900 to 1912 or 13. Also Brother Frank Simms who was our pastor between the years 1913-14.

Early ministers were
M.L. Brigham (father of Mrs S.A. Upchurch)
L.V. Rector (married Flora Upchurch and J.A. Bodenhamer)
Pine
Klinestiber 1903-04
Sampson 1905

Other ministers were:
Rev. Hammon who served from 1925 to 1926
Rev. C.P. Kernes 1926-27
Rev. John Cox 1927-30
Rev. G.C. Thomas 1931-32

Rev. Hall Noble 1943-45
Rev. Bob Harrison 1945-47
Rev. Floyd Connaway 1947-49 Our present pastor is Rev. Luther Skaggs.

May this church stand as an edifice and monument to the devotion, loyalty and self denial of the courageous trail blazers and loyal members who have come our way. Yes, it was the Faith of our Fathers that built the Chaple Hill Methodist Church. To our God and these people we owe a debt. This debt will never be fully repaid, yet only by upholding a standard of morality, close religious adherence and neighborly feeling can we repay in our own small way.

Dear Cus: Phil;

I knew something was missing in my life! It was not subscribing to the U.B. because I spent 27 days in Feb 2002 at Cleveland Clinic having an aortic aneurysm removed & a new valve. Plus picking up a bacterial infection & pneumonia. Seventeen days in intensive care. So therefore I did not read any mail, probably wouldn't understand it either. This 2002 is not my year. At the moment I am recovering from a mastectomy and will start Chemotherapy next week. I'm looking forward to a better 2003, God willing.

Sincerely

Pauline Wood Upchurch

Dear Cousin Pauline,

Thanks for your $30 check covering UB subscriptions for 2002 & 2003 and providing support for Upchurch Research. The back issues have been sent under separate cover.

Your medical problems in 2002 certainly presented a challenge. Let's hope the worst is behind you and that henceforth you will increasingly have good news and that 2003 will find you vibrant and fully engaged in life again. I hope your interest in family history will once again become a sense of joy to you.

In about 6 weeks the 4-month healing process for my broken leg should be far enough along to allow me to walk. That will be a 1 FEB 2003 celebration. Oh Happy Day!

All Best wishes for a Merry Christmas.

Sincerely yours
Phil Upchurch

Dear cousin Pauline,

Thank you for your renewal on the UB for 2004 and for your contribution to the Upchurch Research Fund. We have made great progress in 2003 and hope the year ahead will be equally productive.

Life has been exceptionally busy for us in the last year. We have met and overcome two major health events but overall have had a productive and enjoyable year. We hope to do more travel in 2004 but are not sure where just yet.

We trust this finds you and yours preparing for a joyful holiday season. Merry Christmas.

Sincerely yours
Phil Upchurch
