Hi Brenda---
Jay is not contacting the matches so we will count on you. Also, please check the hints. Also, OK to contact Cross relatives.
By copy of this email I am asking jay to spend the $19.
Sent hurriedly from Prague.
Thanks~
Phil Upchurch

Phil,

I have been doing some DNA analysis with your matches on ancestry and gedmatch. I wanted to check in with you on whether I can contact your matches or if Jay may be taking care of this on Ancestry. I did not want to duplicate contacting the same people.

Of the hints you have on Ancestry, there are 9 with Naaman Mills and 8 with Nathan Upchurch. I have not yet located these matches on gedmatch to do any chromosome analysis, but I will see if they are on there. Does Jay keep up with these contacts or may I contact them?

Since I had a success with DNA analysis with the Cross family, am working on the matches which are on both Ancestry and gedmatch for Silas Cross and his wife and the Ray family. I am attaching some information for your review. My next step is to contact these two testers, Kristin Nicole Cates Dempster and Tamara Elmahdy. Is it OK to contact them? Then I will continue to pursue from there.

Since Ancestry does not offer DNA analysis tools, I will be doing the analysis in both FamilyTreeDNA and gedmatch. Can you have Jay move your autosomal DNA data to FamilyTreeDNA and pay the $19 fee to use the advanced tools? the best way to do this is for Jay to select the ethinicity type option and then it will prompt you for the $19 fee. This will allow me to do chromosome analysis as well.

I am looking forward to seeing you in August and further discussing the DNA project. Please let me know if you have any questions.

Best regards,

Brenda Carbon

I will contact them and also your mT DNA match that is an adoptee. Enjoy your trip!

Thank you so much,

Brenda

Phil,

I am in process of contacting your hints. If I could find their user name in Ancestry, I contacted them through my Ancestry account. There were some that I could not find, so I sent those through your account, identifying my role and asking them to respond via my personal e-mail. I wanted to inform you and Jay.

Hope your trip is going well. See you soon.
