JAA, Sr b 12 OCT 1923 "Jim". His SSN 244-16-7946.

He contracted a Blood Parasite (STRONGYLOIDES) in WWII in China - Burma Theater - cannot have steroids

○ From RPU Call 15 MAY 2011 to James Allen Arnold, Jr

Jimmy says his earliest memories are of
Mama and not of his parents. His first memory
of his family being together was in the
apartment on Hudson Street in Raleigh, NC
He reports that he was impossible to manage
and understands only his parents sent him
away to a military academy.

We discussed his memory of his parents and of
Pat & Bill although Jimmy says Pat was the
first to embrace Catholicism and in due course
persuaded Ray to join her. Jim converted also
led by Ray.

Jimmy recalls being with my parents possibly
with his parents being there also. He recalls
running away to the BJU home and remembers
my Uncle Gette & his wife would bring him
back home. I suppose Mother took care of
Jimmy (& Janet?) while Jim & Ray worked.

○ Item in News & Observer WED 19 MAY 1999

RPA & SSA attended the service for "Jim" we cannot account for 8 grandchildren. Note that Jim may have died before 16 MAY 1999 as that is the date on which his body was discovered. See separate notes for more details. Note that Robert Wagner was a father-in-law.

JAMES A. ARNOLD SR.

RALEIGH — James Allen Arnold, Sr., 75, died Sunday, May 16, 1999 at his home. He was born October 11, 1923 in Rock Hill, SC, a son of the late William Alfred and Margaret Hall Arnold. He was a member of St. Raphael Catholic Church in Raleigh; A World War II veteran, retiring as a Colonel in the US Army Reserve; a self employed contractor and real estate broker and a former sanitary engineer with the City of Raleigh. He graduated from VPI with a degree in Civil Engineering, and received his Masters Degree in Civil Engineering from North Carolina State University.

While serving in the US Army from 1943-1946, he served as a Combat Liaison Officer with the York Forces and Chinese Combat Command, as an instructor and advisor to Chinese forces. He received the Asiatic-Pacific Ribbon with Three Battle Stars for the YFOS Operation, Chinese Offensive and Defensive Campaigns, the Combat Infantry Badge, the Bronze Star Medal for Meritorious Service, and was awarded the Chinese Order of the Floating Cow and the Grand Star of Honor.

Survivors include: daughter, Janet House of Ayden; sons, James A. Arnold, Jr. and Robert Wagner, both of Raleigh; aunt, Lillian Bryant of Rock Hill, SC; brothers, William A. Arnold of Sun City West, AZ, Thomas W. Arnold of Belpre, OH; three grandchildren; eight great-grandchildren; several nieces and nephews.

Beside his parents, he was preceded in death by his wife, Ray Arnold, and a granddaughter, Shannon Ray Johnson.

Funeral service will be held 11 a.m. Thursday at St. Raphael Catholic Church, with Fr. Bill Ryan officiating. Interment with full military honors will be held at Restlawn Memorial Gardens.

In lieu of flowers, memorials may be made to St. Raphael Catholic Church, 5801 Falls of Neuse Rd., Raleigh, NC 27609.

Arrangements by Mitchell Funeral Home, 600 St. Mary's Street.

REMARKS OF REMEMBRANCE

Michael House

RITE OF COMMENDATION

SONG OF FAREWELL: *(sung to the tune of Praise God
from Whom all Blessings Flow)*

I know that my Redeemer lives,
And on that final day of days,
His voice shall bid me rise again:
Unending joy, unceasing praise!

This hope I cherish in my heart:
To stand on earth, my flesh restored,
And, not a stranger but a friend,
Behold my Savior and my Lord.

JAMES A. ARNOLD
6805 JUSTICE DR
RALEIGH, NC 27615-5214

Dear Jim,

It was a pleasure to visit with you and Jimmie over lunch on 22 DEC 1998. Thank you for your hospitality. The two of you seem to be in pretty good health (we mature folks have to accept some limitations/constraints/irregularities). We, like you two, are thinking about the future and what it holds for us. As we move along in years it seems that each future increment of time is ever more precious to us. On the basis of our visit it seems that there are some real prospects for you two to visit with us in due course. We will look forward to that experience and will be happy to show you some of what Missouri is all about including our farms.

and grandchildren.

Earlier this week we called Nelda to wish her happy 45th birthday. None that date has to bring back memories for both of us.

After we left you we drove out to Inwood to pay our respects to the resting place of my parents. The day was fine and a stroll through the cemetery brought back many memories. We had one visit with Mary & her two daughters and their families in Raleigh, a nice lunch with Janet & Michael in Hayden and then a good visit with Sallanne, sister Joyce & her broods in Newbern. Then it was on to Florida to visit Sallanne brother & sister.

We had tentatively planned to stop and go to the Grand old Opry in Nashville, TN on the way home. As matters developed we had no choice but to stop in Nashville as the weather in St Louis was very bad (ice & snow) at about the time we got to Nashville.

We enjoyed the spray (our first visit) and the Opreyland Hotel as well. The Hotel is huge with many indoor gardens each the size of a basketball arena - all at different angles to each other. We kept getting lost. The next day we picked our way to Missouri by way of Memphis (to avoid bad conditions in Illinois). We got as far as Sikeston, MO and decided to stop for the night as the roads were getting bad. The next day we drove carefully back to Lake St Louis and found Bang cleaning snow off of our driveway.

It's great to be back home after 17 days away. The trip was great. Now if we can just catch up on all that has accumulated during our absence.

We'll look forward to seeing you in St Louis this spring!

Sincerely yours

Love
 ☺ Phil Yalovsky

DEAR Phil & Sallaine,

Thanks for yours of the 17th Aug.

It appears that your families are
Really in the fast lane - Pray they're "Settled down"
by now.

Hope Barry is successful with his new
undertaking. Having your own business is not
the "piece of cake" some think it is. Had Ray & I
not be in the business together ~~surely~~ it
would have worked. But my best to him &
Debby.

Jimmy is trying to work again - with
Restrictions - we settled on his truck - Are
now processing his injury case. hope to do this
without litigation -

Janet & Michael are o.k. haven't heard from
Bill or Pat lately.

Am enclosing some orbits & articles

Love
Jim

says we can't go until I make a profit on the farm. That's unfair. Other people don't have to make a profit on their hobby. We hope to celebrate by spending a couple of days later this week at the Lake of the Ozarks. Maybe we can afford that.

Our big news is that Barry & Diane and their 3 daughters are moving back to St Louis in September. They have a contract on their house up there and they were in St Louis last week and signed a contract on a house. It is 12 years old but looks lovely. It is in a very nice section of Chesterfield, MO near where they lived before. It is about a 30 minute drive from where we live - just right!!

The Municipal Bank job Barry took did not work out because of all the mergers involved. His job sort of disappeared

3-

in the process. They offered to let him stay on at same salary in a different job or to take a bail out package. The package was worth over \$500,000 so he could not turn it down. He is one lucky guy. Now he wants to come back to St Louis and to go in business for himself - doing what I don't know. Their 3rd child - now 4 months old is a beautiful girl - does not cry - just goes and coos.

Betty is in the midst of another big merger what with Monsanto and American Home Products merging. A lot of people will lose their jobs. She hopes to end up in the Ag part of the new company. The Ag part will be headquartered in St Louis and will be big. She will land on her feet. She is a sassy cookie - and tough.

Neldai kids are growing up fast -
Heather is now 16 and a beautiful girl
but thinks her parents are very dumb
- sound families. Little Michael will
be 11 on 31 AUG. Ken always has a
worry about his job. The Mining Industry
& the Banks seem alike in that regard.
His Magna Co merged with Broken Hill
Proprietary (BHP) and the sorting out is
still going on.

We have some beautiful soybeans &
corn & good prospects for good yields - but
prices are very low. I hope Sallane
will go out to the farms tomorrow
with me so I can point with pride
- but she is hard to impress.

We do hope Jimmy will continue
with his recovery and that the
settlements will be OK. He is lucky
he survived. I am more and more
driving defensively as the drivers
these days are wild. A lot of people

run red lights - and turn signals seem to be something that were used in the dark ages.

Jim we will be thinking of you as we celebrate our 50th this Friday. A lot of water has gone over the dam since that day 50 years ago when you were with us as we started our lifes journey together. Thanks for being there for us

Love
Phil.

DEAR Phil & Sallane,

It seems that I have been bitten by a "no ambitious dog" seen I haven't answered your letters. Please forgive.

Jimmy was a wreck last year - truck finally "totaled" - not his fault but it took us 13 months to settle with the USOVERSEAS COMPANY ^{in Trade.} He was doing work for this time and still has back pains. WE ARE STILL WORKING ON THE MEDICAL SETTLEMENT.

I hope you were able to take your trip.

How are the crops - what with this WEATHER situation. - Websung critical on coopers - & yats will also some orbits

Love,
Jim

and as a Director of Purchasing now has 35 people working for her including a group in Chicago and one in Belgium. Deb & Robert had a good friend (almost a member of their family) who died last week and Deb & Robert had to make all the arrangements and are executors of her estate. I understand Andy & Jenny (Deb's two children) are beneficiaries.

I talked to Gary yesterday. His job keeps shifting which makes him nervous. You know how the banking business is these days. You can be doing well one day and out on the street the next day. However, he did get a bonus of \$26,000 recently which makes him think he must be doing something right.

Back to Trussor - Nelda & Ken are nervous because copper prices are quite low and their company closed one Arizona Mine last week. Ken hopes he will keep his job

We are now scheduled to go up to Minneapolis in early May to help with the arrival of Grandchild No 8. I am hoping for a boy but cannot say that out loud.

We are in the midst of planning for the spring planting. My hired man, Tom, and I have about 750 acres of soybeans to plant. I am working on a simpler plan for 1999.

We are sorry to learn that Jimmy is slow in recovering from his accident of last summer. As we mentioned on the phone Sallaine slipped on some spilled soap in a store in early December. She has been slow to recover but an xray showed no bone damage. She is about 80% recovered now and on the way to perfection.

Jim - It is always good to hear from you. We were sorry to learn of the passing of Nopi's wife. The world up you

sent on "Preparing for Approaching Death" was well written and we are glad to have. It was also good to have this balanced by the article on the Priest who experimented with Vodha as he preached a sermon. We need to keep our perspectives.

Our big planning exercise now has to do with the prospects of a trip to New Zealand next fall. I hope we can go as Sallaine has always wanted to do so. She won't let me commit to the trip unless I can prove I can pay my 1998 farm bills. We'll see.

We do long for a trip to NZ but will just have to fit it in when the time seems right.

With love from our
home to yours

Phil & Sallaine

DEAR Phil & Solome,

Enjoyed talking with you the other
day.

NO excuse on my part for not writing
sooner.

The only thing we've done since last June
(date of Jimmy's wreck) is work on his
recovery and the ~~repair~~ repairing the truck -
neither has been finished. Really frustrating!

In addition to the orbs I'm enclosing one
article "Preparation for Approaching Death" that
"Happ" and one little joke from my friend
Paul Tope -

Hope the flu is about over -

Love
Jim

(2)

A new priest at his first Mass was so nervous he could hardly speak. After Mass he asked the monsignor how he had done. The monsignor replied, "When I am worried about getting nervous on the pulpit, I put a glass of vodka next to the water glass. If I get nervous, I take a sip."

So the next Sunday he took the monsignor's advice. At the beginning of the sermon he got nervous and took a drink. He proceeded to talk up a storm. Upon returning to his office after Mass, he found the following on his door:

1. Sip the vodka, don't gulp it.
2. There are 10 commandments, not 12.
3. There are 12 disciples, not 10.
4. Jesus was consecrated, not constipated.
5. Jacob wagered his donkey, he did not bet his ass.
6. We do not refer to Jesus Christ as the late J.C.
7. The Father, Son, and Holy Ghost are not referred to as the Big Daddy, Junior and Spooky.
8. David slew Goliath, he did not beat the hell out of him.
9. We do not refer to the cross as the big T.
10. I think the idea of a drive-up confessional is good, but the motto "Toot and tell or go to hell" needs to be reworded.

PREPARING FOR APPROACHING DEATH

When a person enters the final stage of the dying process, two different dynamics are at work which are closely interdependent. On the physical plane the body begins the final process of shutting down, which will end when all the physical systems cease to function. Usually this is an orderly and undramatic progressive series in physical changes which are not medical emergencies requiring invasive interventions. These physical changes are a normal, natural way in which the body prepares itself to stop, and the most appropriate kinds of responses are comfort enhancing measures.

The other dynamic of the dying process is at work on the emotional-spiritual-mental plane, and is a different kind of process. The "spirit" of the dying person begins the final process of release from the body, it's immediate environment, and all attachments. This release also tends to follow it's own priorities, which may include the resolution of whatever is unfinished of a practical nature and reception of permission to "let go" from family members. These "events" are the normal, natural way in which the spirit prepares to move from this existence into the next dimension of life. The most appropriate kinds of responses to the emotional-spiritual-mental changes are those which support and encourage this release and transition.

When a person's body is ready and wanting to stop, but the person is still unresolved or unreconciled over some important issue or with some significant relationship, he/she may tend to linger, even though uncomfortable or debilitated, in order to finish whatever needs finishing. On the other hand, when a person is emotionally-spiritually-mentally resolved and ready for this release, but his/her body has not completed its final physical process, the person will continue to live until the physical shutdown is completed.

The experience we call death occurs when the body completes its natural process of shutting down, and when the "spirit" completes its natural process of reconciling and finishing. These two processes need to happen in a way appropriate and unique to the values, beliefs, and life-style of the dying person.

Therefore, as you seek to prepare yourself as this event approaches, the members of your hospice care team want you to know what to expect and how to respond in ways that will help your loved one accomplish this transition with support, understanding and ease. This is the great gift of love you have to offer your loved one as this moment approaches.

The physical and emotional-spiritual-mental signs and symptoms of impending death which follow are offered to you to

PREPARING FOR APPROACHING DEATH

help you understand the natural kinds of things which may happen and how you can respond appropriately. Not all these signs and symptoms will occur with every person, nor will they occur in this particular sequence. Each person is unique and needs to do things in his/her own way. This is not the time to try to change your loved one, but the time to give full acceptance, support and comfort.

The following signs and symptoms described are indicative of how the body prepares itself for the final stage of life.

1. COOLNESS: The persons hands, arms, feet and then legs may become increasingly cool to the touch, and at the same time the color of the skin may change. The underside of the body may become darker and the skin may become mottled. This is a normal indication that the circulation of blood is decreasing to the body's extremities and being reserved for the most vital organs. Keep the person warm with a sheet or light blanket, but do not use an electric blanket.

2. SLEEPING: The person may spend an increasing amount of time sleeping, and appear to be uncommunicative or unresponsive and at times be difficult to arouse. This normal change is due in part to changes in the metabolism of the body. Sit with your loved one, hold his/her hand, do not shake or speak loudly, but speak softly and naturally. Plan to spend time with him/her during those times when he/she seems most alert/awake. Do not talk about the person in the person's presence, speak to him or her directly as you normally would, even though there may be no response. Never assume the person cannot hear as hearing is the last of the senses to be lost.

3. DISORIENTATION: The person may seem to be confused about the time, place and identity of people surrounding him/her, including close and familiar people. This is also due in part to the metabolism changes. identify yourself by name before you speak rather than to ask the person to guess who you are. Speak softly, clearly and truthfully when you need to communicate something important for the patient's comfort, such as, "it is time to take your medication," and explain the reason for the communication, such as, "so you won't begin to hurt."

4. INCONTINENCE: The person may lose control of urine and/or bowel matter as the muscles in that area begin to relax. Discuss with your hospice nurse what can be done to protect the bed and keep your loved one clean and comfortable.

5. CONGESTION: The person may have gurgling sounds coming from his/her chest as though marbles were rolling around inside. These sounds may become very loud. This normal change is due to the decrease of fluid intake and an inability to cough up normal

PREPARING FOR APPROACHING DEATH

secretions. Suctioning usually only increases the secretions and causes sharp discomfort. Gently turn the person's head to the side and allow gravity to drain the secretions. You may also gently wipe the mouth with a moist cloth. The sound of the congestion does not indicate the onset of severe or new pain.

6. RESTLESSNESS: The person may make restless and repetitive motions such as pulling at bed linen or clothing. This often happens and is due in part to the decrease in oxygen circulation to the brain and to metabolism changes. Do not interfere with or try to restrain such motions. To have a calming effect, speak in a quiet, natural way, lightly massage the forehead, read to the person, or play some soothing music.

7. FLUID AND FOOD DECREASE: The person may have a decrease in appetite and thirst, wanting little or no food or fluid. The body will naturally begin to conserve energy which is expended on these tasks. Do not try to force food or drink into the person or try to use guilt to manipulate them into eating or drinking something. To do this only makes the person much more uncomfortable. Small chips of ice, frozen gatorade or juice may be refreshing in the mouth. If the person is able to swallow, fluids may be given in small amounts (ask the hospice nurse for guidance). Sponge toothettes may help keep the mouth and lips moist and comfortable. A cool, moist washcloth on the forehead may also increase physical comfort. Vaseline applied to lips, teeth or gums may prevent sticking, cracking or irritation.

8. URINE DECREASE: The person's urine output normally decreases and may become "tea" colored, referred to as concentrated urine. This is due to the decreased fluid intake as well as decrease in circulation through the kidneys. Consult with your hospice nurse to determine whether there may be a need to insert or irrigate a catheter.

9. BREATHING PATTERN CHANGE: The person's regular breathing pattern may change with the onset of a different breathing pace. A particular pattern consists of breathing irregularly, i.e., shallow breaths with periods of no breathing of 5 to 30 seconds and up to a full minute. This is called "Cheyne-Stokes" breathing. The person may also experience periods of rapid shallow pant-like breathing. These patterns are very common and indicate decrease in circulation in the internal organs. Elevating the head, and/or turning the person on his/her side may bring comfort. Hold his/her hand. Speak gently.

NORMAL EMOTIONAL-SPIRITUAL-MENTAL SIGNS AND SYMPTOMS WITH APPROPRIATE RESPONSES

1. WITHDRAWAL: The person may seem unresponsive, withdrawn, or in a comatose-like state. This indicates preparation for release, a detaching from surroundings and relationships, and a beginning of

PREPARING FOR APPROACHING DEATH

"letting go". Since hearing remains all the way to the end, speak to your loved one in your normal tone of voice, identifying yourself by name when you speak. Hold his/her hand, and say whatever you need to say that will help the person "let go."

2. VISION-LIKE EXPERIENCES: The person may speak or claim to have spoken to persons who have already died, or to see or have seen places not presently accessible or visible to you. This does not indicate an hallucination or a drug reaction. The person is beginning to detach from this life and is being prepared for the transition so it will not be frightening. Do not contradict, explain away, belittle or argue about what the person claims to have seen or heard. Just because you cannot see or hear it does not mean it's not real to your loved one. Affirm his or her experiences. They are normal and common. If they frighten your loved one, explain to him or her that they are normal.

3. RESTLESSNESS: The person may perform repetitive and restless tasks. This may in part indicate that something is still unresolved or unfinished that is disturbing him/her, and preventing him/her from letting go. Your hospice team members will assist you in identifying what may be happening and help you find ways to help the person find release from the tension or fear. Other things which may be helpful in calming the person are to recall a favorite place the person enjoyed, a favorite experience, read something comforting, play music, and give assurance that it is o.k. to let go.

4. FLUID AND FOOD DECREASE: When the person may want little or no fluid or food, this may indicate that the person is ready for the final shut down. Do not try to force food or fluid. You may help your loved one by giving them permission to let go whenever he/she is ready. At the same time affirm the person's ongoing value to you and the good you will carry forward into your life that you received from him/her.

5. DECREASED SOCIALIZATION: The person may only want to be with a very few or even just one person. This is a sign of preparation for release and an affirming of who the support is most needed from in order to make the appropriate transition. If you are not part of this "inner circle" at the end it does not mean you are not loved or are unimportant. It means you have already fulfilled your task with him/her and it is the time for you to say "good-bye." If you are part of the final "inner circle" or support, the person needs your affirmation, support, and permission.

6. UNUSUAL COMMUNICATION: The person may make a seemingly "out of character" or unusual statement, gesture or request. This may indicate that he/she is ready to say "good-bye" and is "testing" to see if you are ready to let him/her go. Accept the moment as a beautiful gift when it is offered. Kiss, hug, hold, cry, and say whatever you most need to say.

PREPARING FOR APPROACHING DEATH

7. GIVING PERMISSION: Giving permission to your loved one to let go without making him/her feel guilty for leaving or trying to keep him/her with you to meet your own needs can be difficult. A dying person will normally try to hold on, even though it brings prolonged discomfort, in order to be sure that those who are going to be left behind will be alright. Therefore, your ability to release the dying person from this concern and give him/her assurance that you will be alright and that it is alright to let go whenever he/she is ready, is one of the greatest gifts you have to give your loved one at this time.

8. SAYING GOOD-BYE: When the person is ready to die and you are able to let go, then is the time to say "good-bye." Saying "good-bye" is your final gift of love to the loved one, for it achieves closure and makes the final release possible. It may be helpful to lay in bed with the person and hold him/her, or to take the hand and then say everything you need to say.

It may be as simple as saying, "I love you." It may include recounting favorite memories, places and activities you shared. It may include saying, "I'm sorry for whatever I contributed to any tensions or difficulties in our relationship." It may also include saying, "Thank you for . . ."

Tears are a normal and natural part of saying, "good-bye." Tears do not need to be hidden from your loved one or apologized for. Tears express your love and help you to let go.

HOW WILL YOU KNOW WHEN DEATH HAS OCCURRED?

Although you may be prepared for the death process, you may not be prepared for the actual death moment. It may be helpful for you and your family to think about and discuss what you would do if you were the one present at the death moment. The death of a hospice patient is not an emergency. Nothing must be done immediately. The signs of death include such things as: no breathing, no heartbeat, release of bowel and bladder, no response, eyelids slightly open, pupils enlarged, eyes fixed on a certain spot, jaw relaxed and mouth slightly open.

A hospice nurse will come to assist you if needed or desired. If not, phone support is available.

The body does not have to be moved until you are ready. If the family wants to assist in preparing the body by bathing or dressing, that may be done. Call the funeral home when you are ready to have the body moved and identify the person as a Sun Health Hospice patient, also tell the funeral home that this is an expected death and that the pt's physician for hospice care will sign the death certificate, do not call 911, nor should the police be called. The hospice nurse will notify the physician.

PREPARING FOR APPROACHING DEATH

THANK YOU

We of hospice thank you for the privilege of assisting you with the care of your loved one. We salute you for all you have done to surround your loved one with understanding care, to provide your loved one with comfort and calm, and to enable your loved one to leave this world with a special sense of peace and love.

You have given your loved one one of the most wonderful, beautiful and sensitive gifts we humans are capable of, and in giving that gift have given yourself a wonderful gift as well.

The big news is that just today Bary has resigned his job at Merchants Bank in St Louis and has accepted a position with First Bank in Minneapolis. He will get more salary, options, etc but it looks like they are going to blow it on a house. They looked at one 4500 square feet, it has a basement (finished) where they would keep the dogs and visiting relatives! This is the 15th largest bank in the U.S. and they want to be in the top 10. They will probably be buying other banks. Bary's job will be in charge of promoting banking from small business (accounts, loans, credit cards). He will report for work on 30 JUN 97. I guess we will keep the kids some as they go through the transition.

My blood pressure is generally running 140/90 and my doctor has decided to put me on some kind of treatment. He is first having a series of tests made. I guess I have to get more serious about diet,

exercise, etc. I don't know about stores. Sallavie
thinks the farms are steepful. I think
they are fun.

Our soybeans and corn are finally
up to a decent stand but the weather
has been cool & wet and not good
for growth. The wheat looks OK and
we are about 2 weeks away from
harvest. In August I'll decide whether
to take over more of the operation - Now
it looks like I will - if I can get my
part time worker to come with me full
time.

We are about 1-3 weeks away from a
firm decision on the Business Park. Gary
is excited about it.

Hope all is well with you and Jimmy.

Love
Phil

REC'D
95 JUN 1997

6 June 97

DEAR Phil,

HAVE been ANSWERING yours of 2 May every day - I guess I'm the family's worst procrastinator.

OUR WEATHER has been the topic of conversation for the last month. Recent lows - temperatures up to 20° Lower than normal - more of it is ~~forecast~~ forecast. I still haven't planted my 3 or 4 tomato plants planned to today but rain & 50° temp puts that on hold again.

Other than weather things are progressing as well as can be expected. Betty is back home and doing O.K. but still has a breathing problem.

It seems that every letter from your Barry is interviewing another position - hope he gets what he wants - but Minneapolis is mighty cold.

My blood pressure is giving me a little trouble - they have put me on medication - but I think my weight is the problem - and even with exercising I can't ~~get~~ get the weight off. The answer, I ~~know~~, is reduced calorie intake.

I'm enclosing a couple of articles you ~~might~~ ^{have} have an interest. Also an explanation of the death of one of church.

Ada J. U. and My best to all.

Jim

We were sorry to learn that Betty is not doing well. Hope she gets better.

I had my annual check-up last Monday and the doctor has some concern about my blood pressure. It may be OK but to make sure I have to go in every two weeks for the next two months to have it checked to see if it is consistently out of line. I guess we all have to have a few "band aids" as we get older.

We are still excited about our Business Park Project. It gets a little complicated as we will have the property held by a Family Partnership (U & U Family Partnership) and then there will be an L.L.C. to run the operation - tentatively SUNSHINE LIMITED LIABILITY CORPORATION. It all revolves around estate taxes and liability.

Tom (our head farm worker) and I are just on the verge of planting our first soybeans. Our No-Till Bill has been delivered

and the herbicide and fertilizers has already been applied. I feel like a kid in a candy store. Now I can really worry about the weather.

Debby called yesterday to say she is pleased with her new job following the split of Monsanto into two companies. She has just gotten a 15% raise - her largest ever. We are proud of her. Barry is looking into a banking job in Minneapolis, MN. They flew down to see him and then he flew up for lunch. He is scheduled to go back again on 9 MAY and then again to see the CEO. It's beginning to sound serious.

I am not surprised to hear that expansion continues in the Raleigh area and that Jimmy has a piece of the action. Our growth here in the western reaches of the Greater St Louis Area is similar to yours

DEAR Sallernid Phil,

Enjoyed yours of March 28.
BEST of Luck on your proposed building!
You have to take a chance, at times, in Real Estate -
it's the only way to be successful as long as you
can handle the expenses 'til the area grows -
and it will.

My brother Bill's Arizona - wife, Betty,
is in hospital and not doing well. Bill doesn't
think she'll make it. She has had a breathing
problem for years and it getting much worse. She
was on a ventilator for a couple days (this is
not good) but we'll wait & see.

I'm finding out that I do not know how
to breathe. AFTER taking A BREATHING TEST.

Jimmy is working pretty long & hard - This
Allen is still growing.

All the rest are doing fine -

enclosure -

Love
Jim

Every so often ~~the~~ News & Observer, pull out the 1926 article re Sherwood Upchurch and uses it in connection with the latest version of the debate. I have added the article you sent to my growing file on Sherwood. He must have been quite a character. In recent years I have been in contact with a grandson of his who lives in New York City.

We were sorry to learn that you had to have another stay in the hospital but are pleased to know that you have come along well. We trust your recovery will continue on a favorable path.

In the last few weeks we have been evaluating a new project. The town of Montgomery City, in Montgomery County where our farm land is located, is creating a new Business Park. Barry and I are thinking of buying three tracts in the Park making 7 acres. We would build a 3000 sq ft office building on

it for rent. This is a gamble but we are about to convince ourselves that the little town is entering a period of real growth. If so, we would be getting in on the ground floor. If not, we would have a white elephant!

All the kids & grandkids are doing well. Diane has now stopped work to be at home with the kids and presumably to have a 3rd and last child. It all sounds good to me.

We are pleased to hear of good news about Janet and hope things will continue to go well. We'll be looking forward to their visit.

our regards to Jimmy.

Sincerely yours

RALEIGH, NC 27615-5214

Dear Jim,

We arrived home yesterday after a 9 day trip to AZ & CA and found your letter of 20 FEB 1997 waiting for us along with a lot of "OCCUPANT" mail. Thanks for the four clippings which have now been processed. I could not identify James R. U so he goes into the file as "he discussed" later. The article on John U, the Fremont Rep, was very nice. He is in my files as John Howard U - I did not have his wife or daughter name which the article provided. The edit for Bertha U helped. I visited her years ago and she gave me the wrong middle name for one of her children. The Mary U who died is a wife of my very good cooperator John Lee U, Jr who lives on Dixie Trail. I visit him every time I get to Raleigh. This is the first I had heard of the

death of his wife. I have now written him a letter of condolence.

Thanks for the tip on the search by computer of names in the phone books. I have a printout of all Upshur's in the nation from such a computer search. However, the non-Upshur's represent a real resource for me. I can either purchase the CD-ROM for about \$90 and have it on my computer (it then gets out of date) or go on-line and access an always up-to-date version via the internet. On our trip to AZ we purchased a Genealogy Software Package (FAMILY TREE MAKER) and now have to install it. Sallaine even has hopes of me becoming computer literate - we'll see. They are powerful.

I hope the situation with Janet gets taken care of. She and Michael plan to come to see us soon - I think!

we had a great trip to the sanda meet. I took care of a meeting on the Recent Regime Program and we got to visit at length with Nell & Ken and the 3 kids - Heather, the eldest, is just about to turn 15 - a joyful thing! we saw several distant relatives and had dinner with Al & Doris Halk in Sun City. Al has stopped playing golf. They both seem in great shape.

We had 3 days of R & R in California. Saw Hearst Castle at San Simeon and then spent 2 nights on the Queen Mary which is permanently docked as a hotel at Long Beach, CA. we had a real life introduction to Los Angeles traffic and some of it at night. I made only two wrong turns

All Best wishes & love from in both

RELID
27 FEB 1997

Dear Phil & Sallaine,

I've just re-read yours of 7 Dec and here's hoping everything has turned out ~~to~~ as you planned it.

The family is doing fine - Got a little problem with Janet but should resolve this - we have offered our help - maybe she'll decide which way she wants to go. I haven't talked with Bill or Pat but assume there OK.

I've been attending a class (untradition) to computers - a Senior Net program. I don't think I could justify buying one - but they are interesting.

One of our instructors found a new (to her) place on the internet where you can search names - if you'd like to know the names of all the up churches (they have to have a phone #) you can do this quickly - I found the name

JAMES A. ARNOLD
6805 Justice Drive
Raleigh, North Carolina 27615-5214

2

of one of my class mates - J.P.I. He
had moved from New Mexico to Washington State.

Should you want to try it this is info he
gave me "The phone book:

<http://www.yahoo.com/search/people>

You can search the entire U.S. by just
using the last name - or you can
use name, city etc for an individual. This
may help you.

Enjoyed our talk -
and thanks for invitation -

Enjoyed yours of the 14th July.

As usual I answer ~~prop~~ promptly. Hee.

Has Barry made up his mind? I hope
~~all~~ works out well for him & his family. Would
like to know address of also Nell's.

It seems that you are really becoming
a farmer - of course I've always liked land as
an investment - Farming - well not versed in that
also, I'll attempt to use a lot of bees & things
this summer - in the last three weeks - yellow
jackets have hit me - got three at O.K.

My mother can't do any work at all -
just lays in bed (she had two operations - one
after the other) in a skilled nursing home.

[OBIT FOR REX ALLEN W PLACED IN HIS BIOFILE]

I was sorry to learn that Allen died!
Doris called me but didn't get to see her -
Jimmy went to Enwood - saw Doris & Allen
(Jimmy said Allen didn't look like ~~he~~ he weighed
100 #).

I'm enclosing a couple of articles - that you
might enjoy them

Love ~~the~~ Jim

work and they will proceed to have another child - maybe even an Upchurch male! The two girls they have are very special and I am sure they would accept another girl.

Also I have bought another farm. The close on 2450296. It is 278 acres of which 120 acres is more or less wooded and I plan to cut this up into about 10 tracts and sell them for home sites in the country. This will be my "real estate" business. The other part I will farm myself using my hired operator Tom Cobb. To get underway I bought a tractor, disk and mower (brushhog) last week. The tractor is 145 HP and big enough to do real farm work. I count on Tom and another part time person (yet to be identified) to do most of the work. I'll help from time-to-time to get exercise and to get a feel for things. Tom and I are already working on an area on one of my farms to convert it to a pasture. Sallaine is complaining that I am acting like a 30 year old - I think that is good. You need to come and help me convince her I am not cut out to be

a toy husband.

We now have about 1200 acres of crops in the ground. Some of the corn look OK but some was planted so late it will take many prayers and timely rains for it to yield much. The soybeans look almost normal and with a couple of good rains they should make a fair crop. It's now all in the hands of the gods.

We are hoping to convince Joyce and Bill Griffin to come out this fall after the crops are in and help us prepare a NC Pork Barbeque out at the Farm. Bill is an expert at this. Hope they will come.

I know the family will appreciate the trip you plan to Ohio. Flying is a good way to go. We are counting on your trip to St Louis in due course. Hope Jimmy can come.

By the way Ken & Nelda are moving back to Tucson - his company is transparently win. They have bought a house in Tucson and should be there next month. Salline is very happy about the move.

Love
Phil.

REC'D
11 JUL 1996

DEAR Phil & Sallaine,

Really enjoyed yours of the 1st of May.
I have a few reasons for not answering sooner.
But please excuse me this time.

It seems like the ARNOLDS are FALLING
APART: I am finishing facial treatment for
cancer - nothing really serious but the treatment
was anything but pleasant.

My mother had fair fairly her colon removed
last week - ~~down~~ this week. They had to put a pin in
her hip - she got out of bed (I don't think she
knew what or where she was - fell and fractured
her hip. She also has a pulsating Aorta - not good!

My brother Tom (otto) has diabetes - which
is causing blood vessels in his eyes to rupture -
could lead to blindness and having other nerve
problems. His wife June - has glaucoma - but
this is treatable. Jimmy and Janet are doing fine.

Since you lost your wheat, maybe the corn
will help offset the wheat loss. I'm glad you
have some one to help you -

~~I~~ I will probably fly to otto and
visit with them - maybe St. Louis next trip

Enclosures
I don't include in of Clyde
Emmett U. Jr. & the movie at Low Jim
Whitney & Sulzhan - Bennett AU
June

Sallaine and I are most pleased that you may swing by to see us when you next go to Ohio. We have three spare bedrooms so if you have someone with you that would be fine too. Barry and Debra would love to see you. We have options as to what to do. There is a lot to see in the St Louis Area if one is interested - or we can just sit and visit. Naturally, you must see the farm. I discover something new every time I go out. Last week I learned we have beavers! We'll be looking forward to your visit. Anything is good.

Love

19 APR 1996

Dear Jim,

We returned from our two week trip to TX on the 17th and on the 18th picked up our mail including your letter of 9 APR with the slit on Esley U. I don't know how he fits in but have a copy of his brother's obit who died in Wilson, NC in 1989 and which mentioned a brother Esley U living in Spring Hope, NC. I'll keep stuffing items in the file until the group can be connected.

We had a great trip to Texas - went with about 100 people - including Cousin Jesse U at his Palo Ranch just south of Ft Worth. He was one of the 100 richest people in TX as of about 5 years ago. We spent 2 days with a cousin who is retired Texas Ranger - saw the Texas Ranger

Museum in Uaco, TX. You would have enjoyed this and especially the Ranger - Cousin Ed Gooding - we did. You will learn more about our trip in the next U.B. After 2 weeks on the road we were glad to get back home.

Some of the farm projects are shaping up nice. However the cold weather got almost all of our wheat and the wheat land is being replanted to corn. I am trying to hire a person to handle certain farm projects and have a good prospect in mind. I went with him yesterday for the second time and will get serious at our 3rd meeting scheduled for 25 APR. Hope we can work out a deal.

We have just learned that Ken & Nelda & the kids are being transferred from Ely, NV back to Tucson as of 1 MAY 1996. The Magma Copper Co was bought out by Broken Hill Properties (BHP) of Australia and there being some changes. This is a good move

for Nell & the kids at Ely, NV is really isolated. This probably means Sallanne will go back to Tucson with me in August when I go back for the Desert League Advisory Board Meeting.

We are keeping Barry's two kids tonight & tomorrow night while he and Diane go to Jefferson City for a meeting. Little Katie likes other kids - I call them the "BITER" and the "China Doll".

Deb is doing great - but working too hard.

Sorry to hear about Jimmy's back. Hope it gets better fast. The situation with Pat is sad. Hope she gets the attention she needs.

We are thinking about a trip to NC - but no real plans yet - maybe this fall ??? I want to come.

If you go to Ohio - why not swing by Missouri?

13 FEB 1996

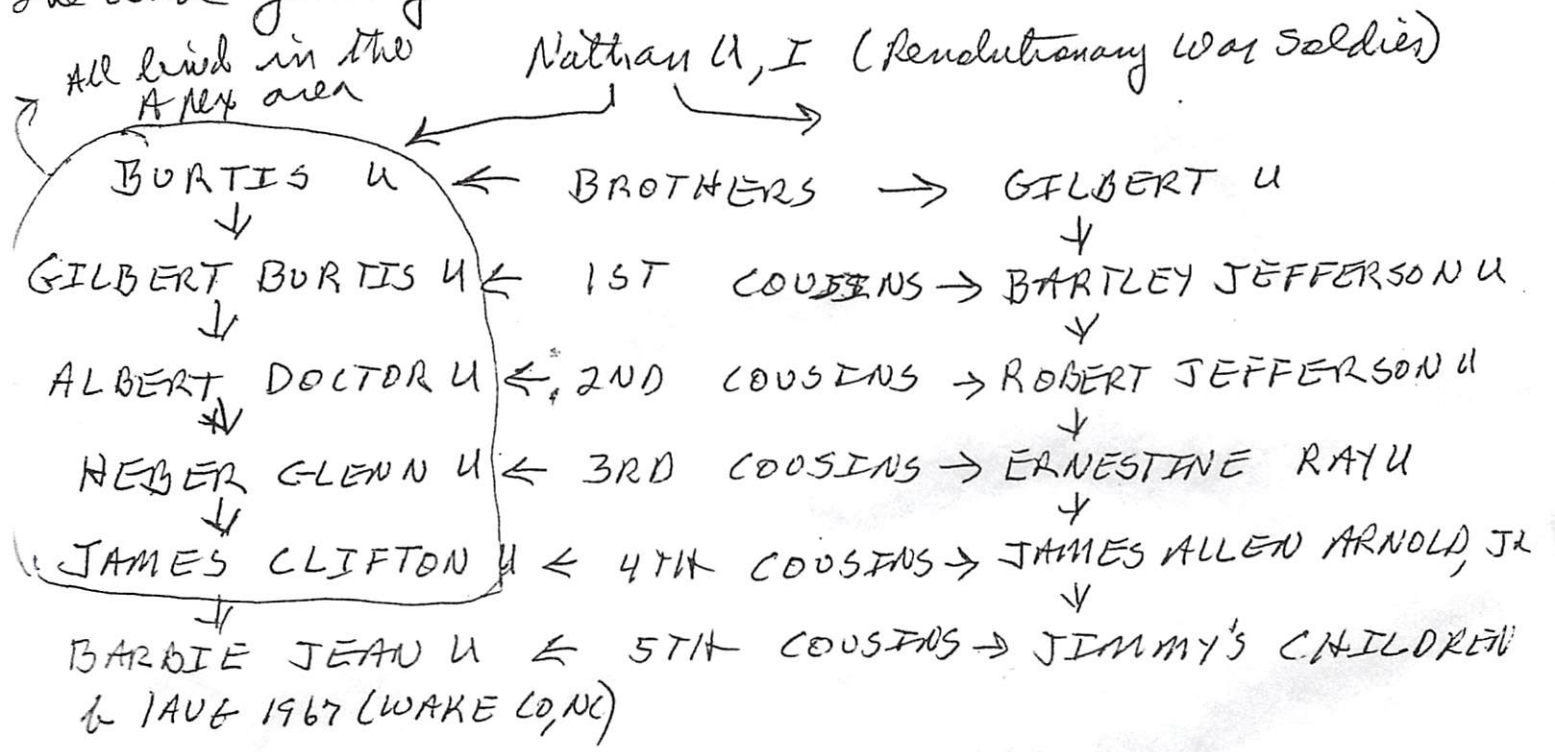

Dear Jim,

Thanks for your letter of 8 FEB 1996 and for the two obituaries. The one for James Robert Tucker I could easily figure out. The one for Mary Catherine Upchurch has not been resolved. The obituary provided a lot of detail and I have made biographies for all the individuals involved but cannot connect this group. I am beginning to wonder if they are Afro-American (if that is the politically correct term this week!) They used CLEMENTS FUNERAL HOME in Durham. If they cater to the colored community that may give a clue. I'll figure it out sooner or later.

I have just returned from the trip to AZ (6-10 FEB) and had a very successful trip. The University part (Desert Legume) went well and I got to visit 5 different

Cousin - including Boris & Al Nelk in Sun City.

You asked about Barbie Jean Upchurch - A copy of her 3 page 9 item profile is enclosed. Here is how she and Jimmy are related

Jimmy and Barbie's father are 4th cousins; Jimmy's children and Barbie are 5th cousins; while Jimmy and Barbie are 4th cousins once removed.

This should be handy for you when you get back from Ohio. Hope your trip is a good one.

Love
Phil Upchurch

30 JAN 1996

Dear Jim,

Thanks for your letter of 25 JAN 1996 and for the four clippings. I was able to identify all three of the Upchurch families and the articles provided quite a few bits of new information. The young lady, Barbie Jean Upchurch, who is now a Raleigh Police officer is a great performer. I have followed her through various clippings reporting her graduation from Apex High School, service in the U S Army (where she was a top performer), etc. She always wins top honors in physical fitness and in academic areas. She is still single we will hear more from her.

On Sunday we returned from our first ever cruise. We spent 7 days on the Majesty of the Seas, photo enclosed, and circumnavigated Cuba. Stopped at Haiti, Jamaica, Cayman Islands and the Yucatan Peninsula of Mexico. In Mexico we saw one of the MAYAN ruins which is at Tulum right on

The coast. The trip was very enjoyable but fattening. They feed you five times a day. Sallaine's sisters Lois (husband Bill Brown) and Mary (her friend Jim Wood Penny) were on the tour also. Now it's back to land and to reality.

Next week I go to Tucson for a meeting of the Desert League Advisory Board. Then it is time to get busy on the next U.B. issue. We have a new computer and have to get help to put out the next bulletin on it. I am supposed to learn how to operate the beast but so far have only learned to play solitaire on it.

All things considered it does seem best that your mother go into a "Self Help Care Center". You are correct in pointing out that this is a serious national problem. Sallaine and I want to find something here in the St Louis area that comes close to Springmoor in Raleigh. Sometime in the next 5-20 years we would make that move.

enjoyed the article on Gubba.

REC'D
29 JAN 1996

DEAR Phil & Sallanve,

Really enjoyed games of the 16th & 26th of Dec.
Have been mentally answering them several times.

I'm Real happy that someone of us
can work with a computer - I have trouble dialing
a phone - I do think that we should all be
familiar with them.

Your decision on the farm crops reminds
me of Bobby Johnson - Just before he died he told
Ray & I that he had reduced his farming to wheat,
soy, beans & corn - no ~~tobacco~~ tobacco - it's a
shame he didn't have the time to try it.
Tobacco has more than one way to kill and I'm
sure other crops can do the same.
BEST of luck on your decision!

2.

(2)

The time has come where my brothers & I will have to put my mother in a "SELF HELP Care Center" - don't look forward to this as she has resisted it. The problem is her memory and she will not exercise or hardly get out of bed. None of us are capable of managing her - helpfully this will help - I'm glad we didn't have to go this route with Manny or Ray.

The meeting is 15 Feb. I've been selected to condition her to this. I knew my brothers were "out to get me" - I think they've gone to far this time. This is a national problem - no one has the answer yet but we can fly to the moon!

Bubba's belle lowers the boom

Bubba was standing at the battered old Wurlitzer jukebox at the Way Out Yonder Saloon while Darlene was on the phone lining up a rush order of Penrose sausages and beef jerky for the night's New Year's Eve Party she was throwing.

"If these people have to party on

**DENNIS
ROGERS**

pickled eggs and Fritos, there's going to be big trouble," Darlene was shouting into the phone. "Those pickled eggs you sold me have gone bad. Half of them are floating!"

With that, she slammed down the phone just as Bubba fished a quarter out of his jeans and slid it into the slot. Seconds later the song that is the unofficial theme of the Way Out Yonder Saloon filled the empty bar: "I was drunk the day my mom got out of prison/and I went to pick her up in the rain/but before I could get to the station in my pickup truck/she got runned over by a damned old train."

"C'mere Bubba, we got to have us a talk," Darlene said when the song ended. It was their custom not to talk but to softly sing along when such semi-sacred music was playing.

"Now Bubba, you know I love you better than Dolly Parton loves hair spray, but this New Year's Eve party is not going to be like last year's," she said. "You know I have never said one word about your drinking but you've gotten behind the wheel drunk with me for the last time, Bud. I ain't big enough to stop you, but you ain't big enough to make me ride with you when you're drinking, either. I'll back you in a bar fight and I'll cook your smelly chittlins and I'll even let your sick dog sleep on the foot of the bed, but I'll be damned if I will let you kill me because you're too macho to let me drive when you're drinking."

"What in the name of George Jones are you talking about," Bubba said.

"This," Darlene answered, and slammed down a copy of the last week's paper. "This story right next to the used Harley ads you were reading says that good old boys like you are the most dangerous people on the road. It says y'all's macho pride gets in the way of your brain, particularly when you been drinking, and y'all are too stubborn to let your girlfriends and wives drive when you're drunk. It's like you were ashamed to let your buddies see you riding with a woman."

"And guess who you kill when you drive drunk? Your passengers, that's who, and that's me. I love you, Bubba, and I'll live my life for you, but I won't die in a muddy ditch so you can act tough and not be seen with your girlfriend behind the wheel of that old truck of yours."

You could have cut the silence in the bar with a rusty buck knife. Bubba would have given a hundred dollars cash money for a customer to walk in the door to draw her undivided attention, but no such luck. He knew the rest of his life depended on what he said with his next breath.

He reached into his pocket and pulled out the keys to his 1974 mostly primer red pickup truck and slowly pushed them across the bar toward her.

"Darlene, that's the sweetest thing anybody ever said to me," he said, his voice a little husky, the way it gets when a man's about to cloud up and cry.

He took a deep breath and then he said, "And I'd like fried corn bread and collards with them chitlins."

With that he laughed, ducked and ran for the men's room door but he didn't make it. A pickled egg caught him between the shoulder blades with three steps to go.

Darlene was right. Those things were rancid.

JAMES A. ARNOLD, SR
6805 JUSTICE DRIVE
RALEIGH, NC 27615

Dear Jim -

Thanks for the Obit on Annie Elizabeth Upchurch who died at age 93. Her family represents one of my ongoing puzzles. I met with this lady in her home on Willard Place in Raleigh 1:15-3:15 PM 25 FEB 1980 and have a good set of notes. That was my one and only contact with her. She was very cordial. Her mother's name is on the corner stone of Needham-Broughton High School as she was for 25 years a member of the Raleigh School Board. I have a list of her brothers & sisters and know her father William Archibald U, Sr was born 1860 in Granville Co, NC - The records earlier than 1860 get a little murky - sooner or later I'll figure it all out.

Deb & Barry and their families spent yesterday with us and we all had a grand time. We showed about 1/4 hr. of our 3,000 slides as Diane had never seen pictures of Barry as a child. Actually as a little kid he looked a lot like his daughter Katie - both mild & devilish.

We have now had 8 inches of snow on the ground for over a week and none of it has melted. We really had a white Christmas. The roads are quite clear though. We made a trip out to the County to take presents to our three operators and found the County roads snow packed. Sallaine constantly said - go slow, go slow.

I called Pat on her birthday - 17 DEC 1995 and had a nice chat - learned that you had already called. Confirmed your information that Bob has moved back home for good. This certainly has some good points and it may work out well for all concerned. At this stage it is comforting to know that Pat has a young adult to help her.

Our next big project is to get all the details available in order to meet with our tax accountant on 8 JAN 1996. We have to pay estimated taxes by 15 JAN 96. It is all a pain.

Our best to you and family for a blessed New Year.

Love
Phil & Judy

16 DEC 1995
5:00 AM

Dear Jim,

Thanks for the two photos which arrived yesterday. I have been able to place the two individuals and appreciate these two additions for our family records.

It was nice that you and Jimmy had the opportunity to meet with your relatives in Ohio. It was especially nice that Jimmy got to visit with his West Coast and Northern Cousins. He probably does not get to see them often.

I have made a note to call Pat & Bill next week just to check up on them. The news you provided that B. G. is now with them is new to me. I hope this arrangement is permanent and that it works out. Pat places a lot of trust in B. G. Pat's memory does seem to be a growing problem.

Yesterday brought some excitement in our home as we brought home a new

powerful computer - 133 MHz, 1.6 GigaBytes, etc, etc. The technician will come Sunday to set it up. It has a built in FAX, phone answering machine, modem, voice interaction, etc, etc. It will take us a while to feel comfortable with this monster in our midst - connect up to internet, etc. The CD-ROM aspect looks fantastic. Sallaine is insisting that I actually learn how to use the thing. It should prove extremely useful in our family history project - we'll see.

We are in the midst of analyzing our farm operations for 1995. Corn & soybeans look OK but we may be losing money on wheat. I'll take a closer look and see if we should begin to think of dropping wheat from our rotation. It is not an easy decision.

At present I am considering buying another farm and hiring an operator by the hour to run it. This will place me as the legal operator of a farm and I can then participate physically in the operations of

that unit. Sallaine would rather I stay home and help her shop, tend the yard, etc. We'll see.

Mary's Teresa had a little boy named Matthew William Hike. Everyone is fine. Mary is very pleased as are the Hike's grandparents.

We are having a fair amount of interaction with Gary & Betty & their families. Sometimes it makes our life more busy than we would like but it is all enjoyable. They will all have Christmas Day with us and we are looking forward to that. We will be showing slides going back almost 50 years ago. One of our prized ones is the set of slides for our wedding - which includes you - back in AUGUST 1948!!

Remember to go out and buy yourself a nice Christmas present. That is what I do!

Here's wishing you and family a Merry Christmas and a blessed New Year.

Love
Phil Yelund

Tonight we go in to have dinner (out) with Deb & Bob & Andy & Jenny & Nelda. Sunday we meet with Gary and his family. Last night we took Nelda to the club for dinner. Yesterday we took her to see the farm and to have lunch at "FRUMPY JOE'S", my favorite country restaurant (cafe). This afternoon Nelda & Betty are going to a movie.

Last week-end we had Billy Grippin & his wife for the week-end. They are on their way to Montana to hunt deer. Billy said he has only 59 days (he should have been an 1/2 month). [Billy is the son of Sallan's sister Joyce from the Newber, Area].

Winter is around the corner and I still don't have any wood cut for the fireplace. Another "to do".

Keep Well.

Dear Jim

Thanks for your letter of 31 AUG 95 and for the obituary on Ernest Cad Upchurch. He and I corresponded several times in 1991 and 1992. I think he was going to do quite a bit on his family but regret that his health became a problem. We do know how he fits in. I was able to pick up several key facts from the obit and it is much appreciated.

We were sorry to learn about Jimmy's fall. Hope he recovers soon. You are right about the medical people. You have to do your own thinking and make sure they stay on track.

We came out OK with the FED's on the met lands. They have agreed to give us the more favorable "Prior consented

"wetlands" category which allows us to do more or less what we please. This still leaves us to deal with the U.S. Army Corps of Engineers. To get permission to clean out the ditches because it is classed as a "stream". Another agency to deal with. Sallaine and I were out yesterday and walked over two new grass waterways being installed. They are ready for seeding.

This is "Grandfather's Weekend" - Tomorrow I go see Katie have her first horseback ride. Saturday I go with Andy fishing.

The weather has turned nice here. We are enjoying our patio - taking some meals there. We have contracted for a rail to be put around it - finishing the house as it were.

Sorry to hear about Pat. Hope things will improve.

Love
Phil.

 SORRY I missed sending you a card
 on your anniversary. I failed to
 transfer into from the 1994 calendar
 to the 1995 copy. Maybe I'll do so
 before 1996.

In ref to Barry & Diane, I guess
 your divorce decree has taken effect!
 I'm still married to Jimmy. As
 our atty. Saet to let to change!

Out for Ernest Carl & placed in his profile

(2)

all are well ~~then~~ except Jimmy.
He was working with a friend on a
hunting ladder when he fell and
fractured ~~his~~ one of his vertebrae -
The emergency room doctor said it would
soon crack out and would heal within 5-6
days. After 3 days the pain was worse -
we were sent to an orthopedic who
suggested a C-scan - This showed that
the E.R. doctor was only half right -
both sides were cracked and he could
have damaged his spinal column - Jimmy
was very lucky - I know to check on
doctors but again didn't understand
enough to ask for additional tests -
The C-scan must be used whenever the
neck or other vital body parts are
injured if the X-Ray cannot show the
whole picture! If all goes well - the
doctor ~~he~~ says to handle this by
outgoing glass - he should be on the
road to recovery in 4 weeks.

and had to go to the hospital - talked with her but not sure what the problem was or is - some chemical out of balance. It's really a shame to see and here her fade so fast as a matter of fact their Pat + Bill's whole family are a mess - but nothing we can do about it. Thank God Ray can't here to see it.

I'm glad to hear that your crops are doing O.K. - N.C. has had a huge loss - plus the latest flooding after a long dry spell. One large hog farmer (corp corp. type) allowed a huge amount of waste to go into several rivers from their lagoons and was fined 110,000.00. Gov. Hunt was told them to "Shape up" or "Ship out."

Our weather has moderated a little but still hot & humid.

Hope you were successful with the "feds"

6805 JUSTICE DR
RALEIGH, NC 27615-5214

Dear Jim.

Thanks for your letter of 23 NOV and for the two newspaper articles. I was able to find both in the files and to add the details in the articles to their files. You continue to be my only source of articles appearing in the New & Observer and they are very useful.

I hope you will find a few nice days to allow the painting of the house to proceed. We, too, hope for a few days of good weather in Missouri in order for our subdivisions to be completed. They are right in the middle of installing utilities, streets, etc. We have delayed our trip to inspect the site until early January and I have doubts if it will be ready for

inspection then so we may have a delay again. In the meantime the plans for our new house are proceeding. We think it will be very nice. You must come to see us after we are settled. I would love to show you the farm. Our moving date all depends on the new house being completed and on selling our townhouse in Tucson. I now project a move in APR, MAY or JUN of 94.

Little Jenny, Deb's newest, is doing well. We are anxious to get up and see her. Andy and Blaze (the dog) seem to have adjusted to having a little one in the house.

We talked to Barry & Dianne last night. They are just 7 weeks away from their family increase and all seem to be well. They have avoided learning if it will be a boy or a girl. Barry is still holding down two jobs in the bank but in a few weeks hopes to give up his old job downtown and to spend

full time at his new office in Creencross. It will be much closer to where they live. The new job is sort of a lateral move but really a promotion as he will be in charge of a "profit center". He will get credit for any increases in profit from his part of the business but will get the blame if targets are not met. He seems to be learning a lot.

Deb has been nominated for a "Leadership - America" award. They pick 100 outstanding females across the country each year and they attend key workshops in Washington, DC and elsewhere. It is an honor to be nominated. I hope she gets it.

Nelda and her crew are doing fine - they are growing up fast. Their move to Nevada with Magma Copper seems very likely in 6-12 months. Ken really goes after his work. You & he as engineers could talk the same language. After they get settled in Ely, NV you should go see them.

I talked to Pat about a week ago. We had a nice long conversation. She has some short-term memory problems. She says the doctor has changed her medicine and that over a period of several months her memory should improve. I hope so. At the present she seems to have stabilized. I would sure like to see Pat & Bill move into a retirement center like Springmoor in Raleigh. It would give us all peace of mind. That is what Sallaine and I plan to do sometime in the distant (?) future.

I hope you & Jimmy are doing well and looking forward to having Mrs Arnold with you.

All the best for a Merry Christmas and a Happy New Year "

MAKING A STATEMENT

For local opponents of President Clinton, this sign is certainly an apropos political statement. The Newberry, S.C., sign has garnered some national attention as well. Conservative radio and TV host Rush Limbaugh and Esquire magazine have picked up on it, as have makers of bumper stickers and T-shirts.

THE ASSOCIATED PRESS

Clinton becomes a porch potato

THE WASHINGTON POST

MARTHA'S VINEYARD, Mass. — On his way to this island resort Thursday, President Clinton made his plans clear. "You have more stuff for me?" he asked his personal aide, Andrew Friendly. "I don't want it. Burn it."

On Friday, Clinton seemed determined to put his do-nothing plan into action. He was out until nearly 1 a.m. celebrating his 47th birthday at the vacation home of Vernon Jordan, a Washington lawyer and administration adviser. After that late night, the expected morning jog never happened. Neither did the 10 a.m. tee-off time at the local golf course.

Instead, as reporters camped under a party tent in a field miles from the compound of former Defense Secretary Robert McNamara where the Clintons are staying, the president was living

the life of a porch potato.

Press Secretary Dee Dee Myers said the president "slept in, went for a walk around the grounds . . . and spent most of the morning reading the newspapers out on the porch at the McNamara home."

Actually, the Clintons are staying at the compound's two-bedroom guest house, while Secret Service agents, the president's doctor and military aide and others stay in the main house.

Clinton, who had said he wanted to do a lot of reading, packed 10 books in his beach bag, including "my cheap thrills book," a Robert Ludlum novel, and a new Thomas Jefferson biography that Vice President Gore gave him.

Chelsea Clinton headed for an undisclosed location about 1 p.m., but otherwise the Clintons didn't seem eager to check out any sights before going to dinner Friday night at the home of

Katharine Graham, chairman of the Washington Post Co.

"I think they plan to keep this very loose and unscheduled," Myers said. "I think they'll wake up every morning and decide, based on the weather and how they feel, what they want to do — just like a normal vacation."

That laid-back attitude seemed to affect whatever staff remained on duty at the White House. On Friday, the White House issued a statement describing the president's telephone call congratulating newly elected Japanese Prime Minister Morihiro Hosokawa — more than 36 hours after the call was made.

The stated reason for the delay: "staff breakdown," an aide said.

In the 20-minute conversation Wednesday night from the White House, Clinton and Hosokawa agreed to pursue trade negotiations, Myers said in a statement.

Our purpose for the trip is to see if we can find a house we like. If so, we may buy it and that would save our hand to put our Tucson house on the market. Otherwise, we may wait a month or so. I still have not told the Dean I am leaving, I need to get a fixed departure date in mind before I rattle his cage.

At work I am pushing hard to build up the endowment that supports my personal research program on desert legumes. It is now at \$6,000 and I would like to see it at \$300,000. That would leave the program in good shape. I am sending out 5,000 letters requesting support within the next few days. I just need to find one little old lady with the right amount of money and the interest.

Some parts of my work at the University are going so well it makes me want to stay. On the other hand

3.

I have great plans for the museum operation. Our new 80 acre tract on the interstate should close on 18 AUG 93.

I don't see any pitfalls on it. We have made a bid on another 237 acre subject adjoining our property but I don't know if the owner will sell. We talked to him in May and he seemed somewhat interested, we will learn more when we go to MO later this month.

It is good that you are able to travel back and forth to VA and to share the duties as regards your mother. I hope the celebration in September goes well. 90 years is quite a goal.

Ken and Jimmy sound like two people with much in common. Maybe they should get together and open a hunting lodge somewhere. They would probably be their own best customers.

All our kids and grandkids seem to be doing well. Deb's time is getting close - in October. They seem to have things under control. Barry & Diane are behaving like first-time parents usually do with lots of planning and questions.

We are looking forward to the next few weeks and to the results of our trip and to evolving plans for retirement. The money is definitely "on", it is just a question of when.

Take care & let us hear from you.

DEAR Phil & Sallaine,

Enjoyed yours of the 24 Jul.
Don't have a map of Missouri - are any
of you (you have kids) in the flood area?
Of course, with the way the rains
continue - we may have a problem even
with a new drought. Michael's brother lost
all his corn crop (20 K) and will lose
about 1/2 of his tobacco.

We have sold the land in the best of
the subdivision - and have the best part on the
market (Commercial Property isn't doing very
well). We are doing some work on the
house and may decide to put it on the
market next Spring.

I'm having to spend time with my
mother so do not have much time in either
location. I'm lucky that I do have the time
to spend with her and to leave Tom & June
a little.

24 JUL 93

Dear Jim

Thanks for your letter which arrived on 1250293 and for the enclosure on Avery C. Upchurch and Danah C. Upchurch. Avery has made quite a name for himself. Danah and I corresponded and in about 1978 he and I toured the Apex, NC area. He was quite interested in family history and helped me out a lot.

We are getting more excited about our move to Missouri. Sallaine has become concerned that if we buy a house in the area of Lake Saint Louis I will have to drive 30-45 minutes each way to the farm each day. Her conclusion is that we should have a house in Montgomery City, MO which is only 5-10 minutes away from the farm. Montgomery City is in the county

seat of Montgomery county and has about 800 people in it. There are two nice subdivisions on the east side of town and I think we will buy a lot and have a home built this fall. We may be traveling to Missouri in late August to check out the situation. Sallaine is already going over potential home plans. We would aim to have a new home ready to occupy in January, 1994.

I am getting everything ready if the office is to be turned over to someone else. My appointment with the Dean to tell him about my plans to retire on 9 FEB 94 (my 66th birthday) is coming up fast. It is on 10 AD 693. This gives him 6 months notice. I may change my appointment to give me a couple more weeks to get everything in order. Once I tell him he will tell two others and they will tell two others and in a week everyone will

know. One the word is out I will become
a lame duck and lose my clout.

It looks like we are both going
to have houses on the market before
long. The market is quite good here
at present and we hope to get top
dollar for ours. I imagine yours will
sell well also, you have an excellent
location and a well designed house.
What are your plans once you sell
the house. I am sure there are a
lot of options. I don't know if
spring-moor appeals to you but we
were greatly injured with that
retirement facility. One I get tired of
farming it is just the kind of place
we would like to live in.

If you can squeeze in a trip to Tucson
before we leave we will be glad to see
you - other will come to see the upchurch
farmer in Missouri.

Love
Phil Upchurch

Dear Jim,

Thanks for your letter of 20 MAY 93 which was waiting for me on 1 JUN 93 when we returned from 12 days in MO. The slit on Ruth E. Upchurch of Durham is appreciated. I had one other reference to her back in 1980 but have not yet sorted out who she was married to in the U. family.

I have just written Janet & Michael a letter & enclose herewith a copy for its "news content". We seem to have very bad luck in reading them by phone.

I trust you are back from Virginia Beach now and that you had a successful trip. It was nice that you could visit with your mother and I know she enjoyed the event.

We are looking at a very exciting 12 months ahead. The people here at the University do not yet know I will be leaving. They will have to hire four people to replace me. I on the other hand will have a great obligation removed and can move on to other things "free as a bird". There are many projects to undertake in Moscow. I hope we can close on our new SO area tract. It is a valuable addition as it gives us road proutage for our entire operation. This brings us up to 1,000 acres.

Please give my regards to Jimmy. The construction business should be pushing up steam now if that is where he wants to occupy himself. Recovery of the economy has been slow but maybe that means stability & low inflation.

Come to see us before we leave Arizona!

Love
Phil Upchurch

RALEIGH, NC 27615-5214

Dear Jim,

Thanks for yours of 11 MAY 1993. The obit for Charles Edward U was new. I have had contact with his family but did not know they were in Raleigh. The last I heard they were in Richmond, VA. They are from TN and I note that burial is to be in TN.

The good news from Janet is welcome. I hope everything will go well for her from now on.

Perhaps you have heard by now that both of our St Louis couples are now expecting additions to their families. Deb & Robert expect a little girl in September and Barry & Dianne expect an addition next February. I am happy for them and will be willing to do some "spoiling" but will leave the "heavy lifting"

To them.

Nelda & Heather just dropped by. I showed them your letter. The Sierra Club has started a lawsuit against Ken's company Magma Copper. This means a delay (or cancellation) of the opening of the copper mine in Ely, NV where Ken was to move. They have now put him on a project to evaluate a mine in Chile which Magma may buy. He will go to Chile for a visit. Whether they move to NV or Chile or stay here or look for a job remains to be seen.

We will be leaving on 20 MAY for two weeks in MO. We are taking a little extra time to look over the housing situation with a possible view towards purchasing a house now (unlikely) or next fall (maybe) or later (who knows!). Our plans are still to retire from the University no later than 30 JUN 94 but everything is tentative. I can't afford

To tip my hand at the University
A lame duck has no clout!

The job here is keeping me
extremely busy - but it is all enjoyable.
I could keep on here for another ten
years but there are other things to
do.

We are staying flexible about a
trip to NC. We might come if there
is some special family event.

While in MO we will be looking
at some land Barry & Diane want
to purchase in MO wine country. They
divided their 10 acre purchase at
Wentzville, MO into 3 plots and have
now sold two of them at a nice
profit. They are lucky.

Good to hear that Jimmy is
still working. May the economy is
going to get better gradually.

DEAR Phil,

I enjoyed your's, TIME -
Doesn't seem that long. You are
Really working full time - don't
"over-do it"

I visited Janet & Michael
this past week-end. Janet looks
great - has lost some weight and
has stopped doing most things
that would or could start a northern
attack. They still do not know
what caused her heart to stop -
she does have a little weakness
in part of her heart - not sure
if this is the cause.

Jimmy is still working - I haven't
decided if I'll go back or not - trying
to sell property here - if we do top
would make working a volunteer
job.

Give my love to
Jim

Dear Jim,

We are a few days late on getting the first issue of the 1993 U.B. in the mail. However, it is now ready to go and Salaine will take it to the Post office tomorrow. So now I can try to catch up on correspondence. I have your letters of 12 & 18 February.

- Thanks for the article on Walter Carlyle U, Sr. It seems he did not get enough punishment. Although I am glad to have the article for the file it is certainly not something you would put in the U.B. I try to look for the pertinent things.

I was sorry to learn that Allen Upchurch's wife had died. I have noted

2.

his phone number. The information on Frank's heart operations was new to me. He does subscribe to the UG and I get a Christmas card from him every year. I know you and he go back a long way.

Thanks for sending the DESIDERATA. It is well worth reading and often. This may read at our daughter - Deb's wedding. I may need it this next week. I am responsible for several complex events - Arizona Land & People Conference, Dedication of a new \$24 million building, Awarding of an Honorary Doctorate, Lifetime Award Banquet, etc, etc. It is all falling into place but all of my crew & I are devoting full time to it. If it goes off well I will feel like I have earned retirement.

We are still collecting our thoughts on retirement. It is quite likely we will bail out before my planned date of 15011995. I am anxious to get on the Missouri scene. Sure, there is a lot I can do here at the University.

All our kids & grandkids seem to be doing well. They are really busy which seems to be the style

You had better rush up your plans to come to Arizona before we leave. We still hope to come to NC in May or June but have not made plans yet. need to hear from a Japanese company about a matter they are sending over.

Best regards to Jimmy.

Love
Phil

P.S. I have told your dog John quite a few times. It always gets a laugh. Phil 4

GO PLACIDLY AMID THE NOISE & HASTE, & REMEMBER WHAT PEACE THERE MAY BE IN SILENCE. AS FAR AS POSSIBLE WITHOUT surrender be on good terms with all persons. Speak your truth quietly & clearly; and listen to others, even the dull & ignorant; they too have their story. ☞ Avoid loud & aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain & bitter; for always there will be greater & lesser persons than yourself. Enjoy your achievements as well as your plans. ☞ Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism. ☞ Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment it is perennial as the grass. ☞ Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue & loneliness. Beyond a wholesome discipline, be gentle with yourself. ☞ You are a child of the universe, no less than the trees & the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. ☞ Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors & aspirations, in the noisy confusion of life keep peace with your soul. ☞ With all its sham, drudgery & broken dreams, it is still a beautiful world. Be careful. Strive to be happy. ☞ ☞

RALEIGH, NC 27615-5214

Dear Jim,

Thanks for your note of 3 AUG and for the two clippings which I have just finished processing.

Today is our 47th anniversary and I celebrated by getting a new crown on one of my teeth. The porcelain is just now wearing off and I am beginning to feel some pain. We will put off celebrating for a day or so.

Yesterday we went to church for the christening of little Natalie Elizabeth Updward. The event came off nicely and Gary & Diane had all the relatives, in-law & out-law over for lunch afterwards - including the ministers.

We understand Michael is running for Mayor of Aden. I can see him in that role and hope he wins. I guess that would make Janet "Mrs Mayor" & I

could be a good experience for both of them.

The crops are doing much better than we expected. The rains have been just right and the hot weather seems not to have bothered the corn & soybeans. Still - one has to wait for the actual harvest & sale. We go out tomorrow for a meeting with the federal people to contest a wetlands determination.

We now have a little relief in sight for the weather. We have had heat indexes of 110-120 for a couple of weeks now. Tomorrow the temperature is supposed to be only 90°F.

Take care and look forward to the fall - we have all earned some nice weather.

P.S. enclosed are pictures of me (B+C) in a ditch in one of our fields (now being covered) and of our car (Sallaine in inside!) in the middle of our Fischer Trust - good weather on the north!

Love
Phil Yehrandy

6 AUG 1995

JAMES A. ARNOLD, SR
6805 JUSTICE DRIVE
RALEIGH, NC 27615-5214

Dear Jim

Thanks for yours of 25 JUL 1995 and for the two typewritten articles. They have been extracted and placed in the profile system.

I trust the temperatures have moderated somewhat by now in Raleigh. The heat wave in the mid-west took a big toll - especially in Chicago - as you have no doubt heard. We are now in a "muggy" period in Missouri.

We have just returned from a 9 day 4000 mile driving trip to AZ and NV. We had a nice visit in AZ where I attended the Advisory Board meeting for the Desert Legume Program. We spent one night in Las Vegas and "invested" \$26. We spent 2 nights with Welda and her family in ELY, NV. They have a nice new home in a nice all-new subdivision. The town is small but they are making friends and will cope OK. The kids are growing like weeds. Heather is

almost as tall as Sallaine, Nelda (only) will meet us this fall. Next summer she and the kids will come.

We have learned not to tire off so much in our travels. On the first day we drove 865 miles. We can do it OK but towards the end you get tired and increase the chance of an accident. We made the 1500 miles from ELY to LAKE ST LOUIS in two days.

We spent last Friday with Deb & Janie on a furniture shopping trip for her and then they spent the night with us. Rob and Andy were away at Boy Scouts camp. Yesterday Barry & Diane brought Kate & Natalie out to stay with us while they went to a movie and dinner. We had our hands full with the two little ones. They are doing well.

We are in the midst of several improvement projects on the farm - tearing down two old houses, building gravel waterways and terraces. It soaks up any spare cash and Sallaine is mean to me about the cost (but I am right!). The crew got a late start but have had good rains and are doing well at present. The outcome is always in doubt until the very end.

Real estate is proving to be a tough game. I have several potential customers and wrote my first contract for a couple to buy a home. The offer was rejected so now we meet again tomorrow to increase the offer. It would be great to close this deal. The buyers are very nice people and I have enjoyed getting to know them. I have in mind switching my interest from selling houses to selling land - over the next 2-3 months. I enjoy the land part.

Thanks for keeping me posted on Upchurch articles that appear in the Raleigh Newspaper. You are my only source for this information.

Best regards to you and family.

☺ Love

Thanks so much for the clippings and for the photos. They all represent valuable additions to my records. The photo's turned out rather well - for two mature citizens.

Our home setting is falling into place but it has taken far more time than I would have thought to disengage from Arizona and to reestablish in a new location. Our yard is shaping up nicely I have been away from yard work for a while but since the Doctor says I should get exercise yard work is as good as any other way - I do enjoy it.

We will be in touch with you as we get to Raleigh and will try to find a time that will be convenient for you to join us for lunch. You pick the Cafeteria. We hope Jimmy can join us.

Sallawies brother George & his wife Dot are driving down from Madison, Wisconsin to spend this next week end with us. It should be a nice visit.

Take care.

Sincerely yours
 Phil Upchurch

Dear Jim.

Every day that goes by sees us move and more settled in our new home. We wanted four seasons and real winter is now here - so I think we'll appreciate spring when it comes.

I am now getting back to items of correspondence that had to be put aside because of the move. I have your letter of 13 OCT 94 before me along with the enclosure about later mill and want to thank you for this input. It is good to see that the old mill wheel has been restored and is being put back into place. As I mentioned during our September visit my quick look at the mill did not reveal any evidence of restoration. I'll hope to have another quick look in May if our planned trip to NC unfolds as planned. We

hope to wander across TN and make genealogical stops along the way. Sallaine and I have just had a brief planning conference (we have about three of these a week much to her consternation) and we have tentatively decided on two trips by car each year including the last two weeks in MAY and the first two weeks in NOV. These will have heavy emphasis on family history. our MAY 1995 trip will be to TN & NC and our NOV 1995 trip will be to TX (tentatively). These plans are designed to fit into the farming operation.

Tomorrow, 8 JAN (Sunday) will include a birthday celebration in our home with Deb & Barry & their broods coming out for lunch. The 8th is actually Sallaine's birthday and we will celebrate Barry's 35th which was actually 1 JAN 95

Will be back in Tucson 25-29 JAN & participate in the Desert Game Advisory Board Meeting. Sallaine will go along especially to visit Ned's family.

☺ Love

31 JUL 1994

Col. JAMES A. ARNOLD, Sr (USA Ret)

6805 JUSTICE DR
RALEIGH, NC 27615

Dear Jim.

Many thanks for your letter of 13 JUL 1994 and for all the enclosure. The Tulehuts & Arney Upshunks are quite nice and we are proud to claim him in the Nathan Upshunks class. He helps to offset some others. The Olits were very helpful and I have just finished measuring them.

Our plans to move to Mission continue to unfold. We will be in MO 28 AUG - 4 SEP to close on our new home on 31 AUG 94. Based on the report Gary gave me today after visiting the site it appears it will be ready without any trouble. I'll be going to Washington, DC later this week for a short meeting and will stop by on 5 AUG to have a look at the house. We are pleased with how it is shaping up. There has been some difficulty in

setting on the color of the siding as the Lake St Louis Association Architectural Committee must approve. They turned down pine of our choice. We just got the latest sample in overnight mail this afternoon and it looks OK.

We put our Townhome here in Tucson on the market through a Realty Company a week ago today. So far only two people have looked at it. Keep your fingers crossed for us. When we actually move will be when we sell our Townhome. That may mean a move in SEP or OCT. However, I am obligated to be at the University for a series of events through early November. I may have to rent a spot in Tucson temporarily. By mid-November we should be in Missouri for good. I've got a ton of ideas on what to do when we get to MO but first we have to wind up a lot of things in Tucson.

All of our grandchildren are growing like weeds. Our youngest - Gary & Diane's "Katy" can now sit up at 5 months. Debby & Robert's "Jenny" at 8 months is almost ready to walk. Gary & Diane now have a Boxer puppy. They are finding it almost like having another child. The fact is they are also talking about having another child rather soon.

We have a big decision about what kind of dog to get when we move to No. A Boston Terrier would be great for the house but would not help my image as a farmer. We may have to get a "town" dog and a "farm" dog.

Hope all is well with you and Jimmy.

All the best.

☺ Sincerely yours
Phil Upchurch

XIV-124

DEAR Phil & Sallaine,

REC'D
1 FEB 94

ARNOLD
6805 JUSTICE DR.
RALEIGH, NC 27615

Enjoyed yours of the 24th of Dec.

Am enclosing another article on Millard Upchurch - even though he does seem to need help. I think that the race situation is becoming a little more volatile. With the increase of other minorities the black situation could really become a problem.

Have been going to a Cardio Rehab program at Rex Hospital. It seems to be pretty good - but there seems to be very little coordination with the doctors. As in the past, I've always told people to try to understand all their problems and not rely on the technicians - I'm having to do this, at least until my next visit to Dec. One thing is true - eat right, exercise and learn to Relax; also check out Beta Carotene, Vitamin C & E.

Sorry about the delay in your new home but better delay than not do have it built properly -

I do pray that the new & expected grand children all turn out fine. My best to them.

Jimmy and I were at home during the holidays. The tough part was this

2

(3)

was Fay's favorite, during the year. One
of my problems (heart attack) is related
to the loss of Fay - I had thought that by
now it would be a little easier - not
so - I understand that in many cases
it takes many years.

dimmy is now contracting by himself -
and it will probably be good for him -

Jenit + Michael are doing fine -
haven't heard from Pat + Bill since the
attack. So - I guess they're OK. My
falls are doing fine - Tom + June are
expecting twin grandchildren in April
Michael's mother has been pretty sick -
in and out of the hospital

Hope that your trip to St. Louis
was successful.

My love to all,

Jim

REC'D
14 FEB 1994

DEAR Phil & Lorraine,

I've been trying to write you for some time - just lazy.

I do want to thank you for your support - it ~~meant~~ meant a great deal. I'm now on a couple of CANCER support programs and should have a pretty good recovery. Since one of my problems was stress, I'm enclosing copies of articles given me by the support groups - you might find them interesting and maybe help Al.

[Placed in Briefing of Army Council U]

also enclosing article about Avery Upchurch he is back home, 3721 Fernwood Dr. Rd. 27612, and undergoing treatment. Surgery hasn't, as yet, been planned. According to other articles this type cancer isn't good.

I hope your trip & no. was enjoyable - haven't heard any thing about the new arrival - pray all is well

Love,
Jim

Col James A. Arnold, Sr (Ret.)
6005 Ins. Co. Drive
Charlotte, NC 28015

Dear Jim,

Thanks for your note of 31-2-71 and
for the check on records (Linnell) by which it
was useful as that at least the names of
my children which I did not have.

It is nice of you to offer to send
the by-laws related documents from the
Name & Address and I would like to take
you up on your offer. I submitted to
the Educator and the Apex newspapers
last note to the Raleigh paper. No one
else is sending the state from the
Name & Address and they are quite helpful.

The by-laws bulletin is about 100
pages long. Just wish we bought a
copy (copy SF 8500) for home use. We hope
to reproduce this in a rather than
sending it out to be done by off-set
printing. Hope it works!

We were glad to learn that you
 were making a trip to Arizona.
 As you will recall Phoenix and Tucson
 are only about two hours drive apart
 so we should have no trouble arranging
 to visit we can come up to Phoenix
 & bring you to Tucson and then take
 you back to Phoenix if that fits your
 travel plans best. We do not have any
 advance travel planned for the next six
 months except for a 10 day trip to
 Tucson which will be the last half of
 April or the first half of May we will decide
 which soon.

I hope that finds you and family
 happy. The last of May was a long one
 for all of us and you had to wait be
 acceptably difficult to bear. But we feel good
 about the fact that we had have her for
 so long and about the way she spent.

I am hoping to start the court down
 for retirement about four years from now.
 The problem is to to my duties at work get
 more challenging with time as I learn if I
 have on myself. I wish you were
 productive & able to have
 better & forward to your next **ROBERT PHILLIPS REYNOLDS**

Dear Jim

Thanks for your letter of 17 DEC 1993 and for the clippings. It is good to know that you are up and around. You will no doubt want to pace yourself and build up your strength gradually. It is getting so they work on people like cars - replacing a part here and reaming out a pipe somewhere else. As long as they keep us hitting on all cylinders I guess it is a good deal. We tried to reach you several times and Sallaine finally got through to talk to you. I think your advice is good - if I get a chest pain I'll go to the hospital.

2-

We are having a quiet Christmas in Tucson. Nelda and her crew will join us for Christmas dinner tomorrow. We plan a late January trip to St Louis and for the first time will see little Jennifer b 14 OCT 93 - Grandchild #5. At the same time we will see #6 as Diane is due on 16 JAN 94. They still don't know if it is a boy or a girl - or at least they are not telling if they do know.

The weather has not been cooperative in Missouri so the streets and utilities for our new house site have been delayed. It will probably be 1 MAR 94 before the basement can be dug. Our best bet now is that our new home will be ready for occupancy in June 94. This means we will stay on at the University a little

longer than planned. I can stay after
 1 JUL 94 if I want to. one of the
 tricks is to get our Townhouse
 in Tucson sold at the right
 time. We will wait until we
 return from our January trip
 to Missouri before making some
 decision.

I hope that finds you and
 Jimmy well and enjoying the
 holidays. Let's hope that 1994
 is a good one for us all.

Love

P.S.
 That Millard Chader Phil
 Upchurch, it seems
 to be real sick.

RALEIGH, NC 27615

DEAR Phil & Sallorie,

I Really appreciate your calling when I was in the hospital etc. after the "tread mill" test, the Doctor said the procedure held. I will return for another test in 6 weeks. He has placed me in a cardiac Rehab program at Rex.

I really feel fine and don't understand how weak one gets until I try walking. From 4 miles down to 2 blocks. But then I was very lucky or something. My cholesterol was high and am being treated for same.

My advice - if you have a pain in your chest area - go to the hospital -

am enclosing 6 orbits and an article you might find interesting - "the trail" was declared a "Mistrial".

Hope your holidays & plans are happy ones!

Love,

Jim

Really enjoyed your
last letter - thanks for
the ~~units~~ units.

+ Article about Billard
Charles U, Jr.

We seem to be in an especially busy period and a lot of things are happening. Last Wednesday we placed the last 1996 issue of the UB and Englandia in the mail and yesterday we mailed invoices for 1997. This past week we finalized our Living Trust which involved a ton of paperwork. We are very pleased to have this done as it puts our life in order. There may be more steps to take down the road - such as a Family limited Partnership, an Upland Family Foundation and an Upland Land Management Corporation - we can take our time in deciding about these steps.

The 120 acre I decided to offer as small tracts (3 over & up) is now being advertised in the paper. I have had several calls and will see how this goes.

Early in 1997 we hope to establish a small office out in Montgomery City where our farms are located. We may have to get a facility larger than we need and rent out what we don't need. We have looked at several such buildings.

My Farm Helper, Tom Cobb, and I are doing ok on our farming operation. Mostly recently Tom has been doing all the work. The pasture he and I planted is looking great. Now we have to fence it and get some animals. On 12 DEC 96 Sallaine said I plan to go to an extra animal sale that is held regularly in Mason, MO. It is about a 3 hour drive on the road. Their offering includes 150 miniature horses. I am not ready to buy yet but I am just wondering if miniature horses might be a better bet than cows (or Beafalo as our planning now calls for).

Our next farming step is to buy a NO-TILL DRILL so Tom and I will be ready to seed soybeans next spring. He and I will care for about 300-400 acres of soybeans. It will be an exciting venture for me.

We tried to call you on Thanksgiving Day but you were out - it was great that you had lunch with Janet & Michael. We did talk to Pat. She seems about the same.

She knows she has a memory problem and talks pretty much about it. My memory never has been very good - the result is I always have to tell the truth. If I tell a lie I can't remember what I said so can't keep the story straight

Our health is excellent and all the kids, spouses & grandchildren are doing well. We were at Debby's house for Thanksgiving & Barry & his family were there. We'll have the crowd at our house for Christmas dinner on 22 DEC 96. This week end Nelda & Ken have traveled from Tucson to San Francisco where Ken's company headquarters is located. They are having a meeting and a Christmas Party & they paid for both Nelda & Ken to come. We will be meeting them in Tucson in February.

would you believe I still don't have any wood for our fireplace!

Jim, it's always good to hear from you. Tell Jimmy we hope he had good luck hunting!

P.S. Janet just called to get Nelda's address. We had a nice chat. Phil

12-3-96

DEAR Phil & Sallaine,

Enjoyed yours of the 27th Aug. - Really prompt in my reply!

We have Reasons for the Delay - My mother died and we buried her where Ray is buried. Fran also came during this time and we were without lights & water for 9 days. We were lucky. no damage to house - trees down in back - we'll work on them later.

Still having a weight problem - even with my exercising & medication - my cholesterol is too high.

Jimmy is staying busy - Fran increased their volume of work & with hunting season he has trouble getting his priorities in order.

Janet & Michael were here for Thanksgiving - enjoyed having them - went to K&W in Cameron Village - Ford was pretty good.

<ul style="list-style-type: none"> 1- Fran 2- engineer (2) 3- exhibits 	<ul style="list-style-type: none"> YATES will out of the order by Fran - last Activity on it 	<ul style="list-style-type: none"> Lucy Jim
---	---	---

in some large equipment to take out some large trees now rather than doing that later. Also, we are rebuilding one of the three ponds on the tract. Eventually, we will get it seeded and then come the fencing and then the beefalo!!

The job for Gary in Atlanta is still up in the air. They seemed quite anxious to have him at first with two trips down for an interview. They still say they plan to make a firm offer but now Gary wonders about the situation.

I was in Tucson last week and visited Nelda and her family. They are in good health and have a lovely home in the foothills. However, the company is making noise about sending Ken to Chile. - Bummers!!

REC'D
16 FEB 1993

Hi Folks.

Enjoyed yours of the 6th Feb.
I heard from Allen Upchurch last
nite and was surprised to hear that
his wife had died. And that Frank
had had a heart operation. Since
Ray had stayed in touch with them,
I'm a little out of the flow of
information. By the way Allen's
phone # is 804 421 3315. He seemed
to be a little lonely. I can under-
stand this and will try to call him.

The Durham Upchurch's case was
fairly settled thought you might
like to read it - even though it isn't
some thing that one would advertise.
As far as retiring - stay as
long as you can and are effective or
forced out.

Jim

6 FEB 1993

JAMES A. ARNOLD, SR
6805 JUSTICE DR
RALEIGH, NC 27615

Dear Jim,

Thanks for the birthday greeting and for the clipping on William Richmond Upchurch who died at age 92. He is in my file but the obituary helped me to fill out some family details.

I have already had a taste of signing up with social security. They insist you sign up within three months before you reach age 65 even if you are not going to retire. We really don't know about the transition to Missouri. I am fairly sure we will buy a house there when we retire. We would probably not keep the one here although I am sure we would miss nice months of the Arizona weather.

I hope things work out with court. If it was not going to work out it is good the marriage was called off. My eyes are still fine.

We had hoped to have our travel plans worked out by now. However, it turns out that I have a key worker from Japan scheduled for May or June. I have written to ask that he firm up his plans so I can firm up ours. Perhaps we will know in a week or so. In today's paper there is an article that American may close their Paley's - Durham Hub. - Bad news!

It seems the construction business is heating up. Hope that will mean good news for Jimmy. The paper today reports that lumber prices are going up. Hope that does not mean more

inflation.

I forgot to thank you for the
 article on the gift of the Perry
 farm to the University. That was of
 great interest to me because my grand-
 father owned that land and Pat & Ting
 were born on it. Also, it is of
 current professional interest. I took it
 to our Planned Giving officer here at
 the University of Arizona and we may
 use it as an example for our
 development work here in Arizona.

Sallaine is calling me as I promised
 to work on income taxes today. Hope
 we can get through it peacefully. She
 blames me for deduction Uncle Sam
 does not allow.

Sincerely
 Phil Gschwend

JAMES A. ARNOLD, SR
6805 JUSTICE DR
RALEIGH, NC 27615

Dear Jim,

Thanks for your note which arrived yesterday and for the situation for Melzar Jackson Uplunch. He is in my system & I know how he fits in. I once wrote him but he never answered. I have exchanged details with his nephew.

The prayer about the dog is great! Being an Uplunch I will remember and still this. When we move to Missouri I hope to get another dog of some sort - although my dear wife has reservations about that step of having an animal to take care of.

We are doing very well at the moment. Since I will be 65 next month I am required to document my existence and that of Sallaine with the social security so we can draw SS benefits when I do retire.

It has taken a lot of exchange to get our records straight. The last mailing they made to us showed I was not married! We were in to their local office yesterday for a face-to-face meeting. Everything now seems straight except for one item which we should be able to clear up today by phone.

In a note Janet just mentioned that Carl was getting married again and that she would send details in due course. Hope this time works out.

We are tentatively planning a trip to NC in May. We hope to get the dates firmly established in the next 2-3 weeks. I'll keep you informed. We look forward to a visit with all the family back there and I have some genealogy work to do as you can imagine. I hope to give two Upchurch lectures - one at Inwood & one at Zebulon.

Love
 Phil Upchurch

3 NOV 1992

T ARNOLD
6805 JUSTICE DR
RALEIGH, NC 27615

Hi FOLKS,

It seems that the only time I write is to send you newspaper clippings. Guess I'd better stop this practice or you may not want to receive them.

Spent several weeks in Sept & Oct in Ohio - my mother had a torn upper aorta - real close this time and her memory is failing pretty fast. My brother, Tom, & June are going to move her into their home in Ohio since room can't remember to take her medication - failure to do so would be fatal. This will be quite a burden on them - so I may have to spend more time there in the future to relieve them. Hard to treat others with the responsibilities.

My brother Bill's wife has been quite ill also. We thought for a time that we might lose her. I guess we're all kinda wearing out at the same time.

Hope you are both OK. Have the children left yet?

Doris Holk called and said they were going to Sun city for the winter I hope Tom & June had to cancel their trip west because of mom.

Janet is doing much better - dimming

is fine.

P.S. Are you coming to Robert's in November?

COL JAMES A. ARNOLD, SR (USA, Ret)
6805 JUSTICE DRIVE
RALEIGH, NC 27615

Dear Jim,

After a very restful night I am up at 5:00 AM on Sunday morning enjoying catching up on genealogy. Thanks for your letter of November 5 & 14. The Duly Upchurch who died in Fayetteville is in my files but I did not know of his death. I have been corresponding with his nephew in Florida who has developed a keen interest in his Upchurch heritage. I was pleased to get a copy of the church bulletin in which Father Byrum mentioned Ray's name. She was a wonderful person and we all miss her so much.

On Friday I was in Sun City, AZ & met a 91 year old engineer who may give over ~~annually~~ 1/2 million dollars. At 91 he is still very sharp. You would have enjoyed the discussion. He is Dutch & got his engineering education in Holland but has worked on 3 continents and 11 countries. He has done mining engineering and civil engineering

for cities in NM & CA. At age 23 he had 2000 people under him in a mine in Indonesia. This reminds me of your experience in China. I thought of your brother Bill and also of Boris while in Sun City but was with someone else and had to return to Tucson with them. Upon returning to Tucson I found Sallaine on the phone with Janet who had called to chat. We had a pleasant visit.

The past month has been an exceptional challenge at the office but I think the most difficult part is over. I still have two key events - one on 3 DEC and one on 4 DEC - then one next March. I can see the light at the end of the tunnel.

We are looking forward to a visit from Gary & Diane over the Christmas holidays.

We are still hoping you will pay us a visit. Anytime is a good time.

Best regards to Jimmy.

Sincerely yours
Phil Yehunck

Hi FOLKS,

REC'D
17 NOV 92

Everything here is fine. I hope you are
all well.

My brother Bill's wife is home now.
She is still Recovering but should be out
or at least as well as she can be by
the end of December. Hopefully!

Am enclosing a part of our church
bulletin.

JPB is Father Byrum. He conducted
the mass for Ray. Though you might like
to have one.

our love to all
Jim

GUILD 6 will meet Tuesday, Nov. 10, at Carol Barlow's, 5801 Old Forge Circle (Falls Church Subdivision) at 7:30 PM. Call 878-9286. Please bring items for Dorothea Dix.

GUILD 2 will meet at the home of Terry Borash, 5601, Hawley Court, 848-3456, on Nov. 11 at 7:30 PM.

GUILD 10 will meet on Saturday, Nov. 14, after the 9:00 AM Mass, at the home of Ruthann Benbow, 4016 Wingate.

MOTHERS' GROUP: Our next meeting will be held on Tuesday, Nov. 10. The program, "Pediatric Advice" by Jennifer McKinney, RN, will be of great interest to all moms. Babysitting is provided in Seton Hall for \$1.25 per child (\$4 max). Nursery opens at 9:30 and refreshments are provided. Old and new members are welcome!

HOLIDAY COOKBOOK SALE: Back by popular demand...the Mothers' Group Cookbooks will be on sale after all Masses on Sunday, Nov. 15 and 22. The books are full of great recipes from the best cooks here at St. Raphael's. What a great gift idea for teachers, co-workers and neighbors. Each book costs \$8 with profits going to our church community.

ST. RAPHAEL BABYSITTING CO-OP: Trade time for time. If interested, call Jean Morrison at 676-2181. Next meeting is Nov. 9 at 7:30 PM.

WAKE BLOOD PLAN at Rex Hospital is in need of A- and O- blood donors this week. Call 781-0011 to set up a time to give. Please mention you would like to give credit to Ed Kienzle, a St. Raphael Parishioner.

GRATEFUL THANKS to all who have responded in stewardship to the needs of our church for faithful support. You notice the collections have gone up since October 1 and Pledge Sunday. They were 12 and 13, they now average 16. Since July of the new fiscal year, we are in budget deficit of \$29,000. But now we're catching up, so help us still! (JPB)

Your contributions to the Lord's work last week were recorded as follows:

613 Identifiable Givers	\$15,161.25
Loose Coin & Currency	\$1,541.29
Total Offertory	\$16,702.54
Monthly Budget	71,919.75
November thus far:	16,702.54
Monthly Mortgage	24,141.40
Share Sunday	\$656.50
All Saints	1,712.21

THE PASTOR'S KONVENIENT KORNER

While I was doing my prayers for Donald, I remembered...
So I wrote tonight to a dear friend, a recent widow.

I remembered his skill and kindness as a doctor, his loving kindness as husband and father, his joy in life, and his gift to me as good friend.

I suppose this is the way we generally do November, the month of the holy souls, the Faithful Departed. We pray for them, and we remember, and the remembering is the prayer.

Our Sanctuary was dedicated on All Saints Day, 1987, Nov. 1. Since then, these are the ones who came here in life to worship God, and are the ones for whom we prayed at the hour of their passing. We put the candles around them, and the love, the words of scripture and prophecy. And we walked with them and remember them still.

These are the ones of our company who have gone to God in the five years since: Thomas Chiferiller, Isabel Stanley, James McPartland, Doris Mason, Adela Popovich, Mona Lauria, Cecilia Powers, Jack Stinneford, William Dunn, Arelio Vargas, Santo Calandra, Marion Byckowski, Mary Ravenel, Carmine Romano, Mary Jane House, John Dombrowski, Frances Wilson, Julia Pearson, Anthony Minervini, Margaret Aneskewich, Crisanta Tan, Stella LaCava, Grace Smith, James Bowden, John Rafferty, Jr., Joan Whitsitt, Steven Urben, Samuel Wilson, John Baratta, Keith Benbow, Patrick O'Brien, Josephine Lanz, Diem Nguyen, Thelma Duncan, Edward Voska, Joseph Hinton, Edward Arthur, Jr., Thomas Ispording, Mary Hering, Christopher Miles, Nikki Clark, Raymond Serino, Ralph Linebaugh, Agnes O'Toole, Margaret Young, An Duong, Ashley Filip, Mary Caitin Filip, Christopher Krecicki, Edward Bowler, Frank Noonan, Lillian Clark, Francis Goodman, Irene Finken, Mary Elizabeth Carr, Cao Ho, Hayes Treadway, Richard Bottomly, Caroline Radseck, John McCombs, Adeline Saylor, Frank Parker, Laurie LoBraico, Catherine Kennedy, Josephine Froelich, John Harnett, Emilio Huerta, Wilbert Hast, William Young, Sondra Barry, Genevieve Budzinski, Helen Goad, Anna Rodie, Charles LeFort, James Keefe, Sara Bonin, Judi Taylor, John Brugenhemke, Eva Rabil, Ray Arnold, Patricia Kruger, Agnes Bartle, Agnes Lynch, Sheila Horn, Francis Danforth, Rosalia Thompson, Edward Mroz, Ernest Glendenning, Mary Smythe, Stephen Dimoff, Doris Smith, Thomas O'Shaughnessy, John LaVallee, Clarence Futter, Elva Miller, Marie Giacona, Elizabeth Hansen, Scott Schliitt, Hiang Kwee, Carl Helbig, Cecilia Pavlovic, Peter Tola, Norman Dribelbis, Toni Masini, Helen Futter, Edward Picard, William Cote, Michael Kalwara, Jeanne Pitney

We pray for them again, we love them still. And we will meet once more in the Lord. That is our faith

REQUIESCANT. MAY THEY REST IN PEACE AMEN.

My best, JPB

Dear Jim:

Thanks for all your correspondence.

Hope all goes well there for you.

This has been a very busy fall here - and still more to come. Phil is busier than ever which means more work for me also.

We just returned from Missouri.

Everyone there fine. We had good visits with Deb, Andy & Robert as well as with Barry and Diane. Did lots of jamming.

Nelda, Ken & kids are fine here. Nelda is taking a math course to renew her teaching certificate. She goes to class 3 mornings a week - all kids are in school including Michael. Ken is here at the headquarters in Tucson still working on trying to open the Nevada mine. Have environmental impact concerns so they may be later opening and they expect it will be next summer before they have to move to Nevada.

Nelda spent a week in Missouri visiting an old school mate recently. "Betie" - Ken's mother came and took care of the kids at Ken while she was away.

I'm sending a photo of Barry and Diane's new home. It is really quite nice but they still have furnishings yet to do. We spent two nights with them. Diane is a spic and cook - she and Barry are both doing very well in their respective jobs and seem to be enjoying life. Their new address:

Barry and Diane by church
1826 Britannia Court
Chesterfield, MO 63017

They are in central west St. Louis county, not too far from where we lived and from Deb & Robert.

Our best regards to everyone there -
Love
Sallaine & Phil

Dear Folks,

The notice, enclosed, was published AFTER
my last letter - you could be receiving this
from some one else -

Nothing but weather has changed - From
"cool" to "hot & humid."

As you may have noticed the ~~post office~~
will be reducing its force before 1995 if
congress has its way. It may be somewhat
like the Army RIF'S with the post if they
should select an arbitrary time, under 6 yrs.)
they will be making an even worse mistake
than those they're making now. I hope they
do a great deal of research before doing this.

I do believe that many government and
private business's are really "top heavy"
and steps should be taken to stream-line
as soon as possible - but releasing the
younger people just doesn't make
sense. Serrmon now!

My best to all -

Jimmy Seras has
best engaged the "church Bulletin"

MICHAEL ENTERPRISES

P. O. BOX 35804

TUCSON, ARIZONA 85740

7 JUN 1992

Dear Jim,

Your nice letter arrived yesterday. I have been home two days this past week trying to catch up on genealogy so was happy to get the clippings from the N & O. Two of the three I knew. Joe Brunson, Sr of Durham was at the Upchurch picture I gave about 1985 at the NCS Faculty Club. I went in the home of Billie Josephine U about 1972. The third one - Betty Jean (Johnson) U was entirely new and I haven't figured out how she fits in. In any case, thanks very much for sending the clippings!

We called Janet yesterday. She is having a little back problem - apparently due to picking up Lauren. She says rest will take care of it. Otherwise she seemed fine. Also we called Pat yesterday only to learn from Chr Chr that Pat & Bill are off to Florida to attend a graduation (of Sloan I think). Bill & Pat are expecting visitors from Holland

as of today and Chi Chi had the cleaning detail. I assume if Pat & Bill are off to Florida they must be in good health.

We had a great trip to St Louis. We bought another 200 acre farm which should close in the next 7-10 days. It is not a great piece of farm land but it is OK. It corners with one of our other tracts.

Dianne & Barry are doing fine. They have bought a two story house in Chesterfield and will close at the end of July. Chesterfield is one of the many suburbs of St Louis. Del & Robert & Andy seem OK. Del is working very hard. Nelda & Ken & their family have some excitement upcoming. It seems quite likely that Ken will be transferred in mid 1993 to a Magma mine in Ely Nevada. In the meantime he will do engineering work on opening the mine working out of Magma Headquarters here in Tucson. Ely, NV is in the middle of nowhere but Nelda & Ken seem to have a good

attitude about the money, I don't know what it means for Ken right now but it seems like a very important responsibility for him and his performance could make a difference in his future. Heather, Sandy & Michael are growing like weeds. Sandy seems to be doing very well on the academic side. Recently we kept the kids for five days while Ken & Mel went to Ely, NV for a visit. It was great fun but we were happy to see their parents return.

Your project to work on the house this summer sounds like our situation. We have just had our roof renovated, painted some of the outside, painted inside the garage, had a tree removed from the front, etc, etc. Mostly this has been either at the hands of Sallaine or under her supervision. I can't think of anything else that needs doing but she will surely think of something.

Several of Sallaine's family will be

4-

unity in this month and next. We tentatively plan a trip to NC next November. If our plans hold up we will combine a trip to St Louis with the NC trip. It will be great to see all the family again. of course I have lots of genealogy that needs attention.

We are expecting a real treat this next week. We saw in the State Magazine where Kings in Kristen ships had come with next day service anywhere in the U.S. We called and ordered 10 pounds. It is due in Tucson 9 JUN 92. I am afraid to leave Sallaine alone with it.

Hope the Post office people move along and arrange for you to keep your job. It is a big organization and, if like our University, takes forever for something to be decided.

My best regards to Jimmy -

Sincerely yours
Phil Upchurch

Hi FOLKS,

REC'D
6 JUN 1992

2 JUN 1992
J Arnold - 6805 Justice
Dr., Raleigh, NC 27615

Sorry about the delay in answering
yours of 8 Mar 92. By this time I assume
you've been to Missouri, hope all is well.
Please give my best to all the family. Everything
~~seems to be alright.~~ we are doing as well
as can be expected. Jimmy's construction debt
was up - then appears to be a "lawyer - insurance"
control(?) over the "housing - construction
industry" that has caused a rather steep
increase in costs of construction and availability
of work. The conditions have really changed since
we were actively engaged in construction work.
~~This problem may be only local now but~~
I'm sure it will spread. I understand that
there in the Real Estate business now how to have
extensive coverage - suits - frivolous
suits being filed against anyone involved with a
Sale. Really sad!

Over May 92 weather set a record low,
but the Shenandoah Parkers are happy.

My work with the Post Office will end 30 June if they don't speed up the New Classification. I've enjoyed "up to now" working with them but the New changes that are being implemented for automation by 1995 aren't being handled very well. It seems that management and the Trade people don't get along and I doubt they really want to.

Janet - Michael are OK. Court and Wally are separated - this came as a shock. My mother can't do two shoulder operations and is doing as well as can be expected. Pat & Bill? Don't hear from them so often.

Jimmy & I will start working on our lawn this summer. Seems to need all kinds of work.

Have accumulated a number of notices -

My best love,

OBITS

MICHAEL ENTERPRISES

P. O. BOX 35804

TUCSON, ARIZONA 85740

8 MAR 1992

Dear Jim,

Thanks so much for your letter of 20 JAN & 17 FEB. I am just now beginning to get back into a backlog of correspondence after several weeks of exceptional activity at the University and with week-ends being occupied with winters, taxes, etc. On 27-29 FEB 92 we had the first Arizona Land & People Conference which is designed to showcase the faculty and programs of our College. This was my brainchild and my responsibility to execute. My target was 500 people and we came very close to that - hope for 750 next year. We gave out 25 Lifetime Awards - another first. Will do 5/year from now on. We teamed up with an environmental outfit called Terra Christi. This was tricky as some of our farmers claim we are "sleeping with the enemy". I & came off "OK". They are high profile and emotional. One of their special guests was Dennis Weaver (Chester of Gunsmoke). This

is just one of quite a few projects at the University that is keeping me exceptionally busy these days. At the outside I will bail out 30 JUN 95 - but I have not signed any papers yet, you would think I would be minding down!!

The case about Walter Carlyle Upchurch is sad. I met him once in his sister's home in Durham. She used to correspond a lot but then seemed to go astray mentally. I wonder if the dark family secret drove her to instability. You continue to be my only source of clippings from the New & Observer so I really appreciate them.

Ken still does not know about his new job. He keeps getting good "vibes" from his home. It looks like he might have a shot at a promotion to be stationed at a remote mine in Ely, NV but we will have to wait and see. He did get a nice bonus and Nelda says they can pay off their credit card bills. That's good news. On Friday of next week (20 MAY 92) Heather will be ten and as usual we will take her out to dinner. She is a beautiful young lady

growing up in an unstructured home - whatever that means. Sandy and Michael are doing fine. Deb came through on a recent weekend and we had the Schulers over for drinks.

Deb is really working hard in her job and anxious for continued promotion. She keeps trying to plan her next move in the company which is not easy. Rob seems to be content to take care of Andy and to manage (??) the household.

Bang & Dianne seem to be doing great.

Bang has enrolled for a PhD program at St Louis University in Business Management as a night project. I don't know if that is good or bad. I think Dianne agreed to that venture as opposed to Bang becoming more involved in politics. They are getting serious about buying a house and hope to have something by summer. We are concerned that they may go overboard on the cost but I don't think our advice is being sought. Fortunately, Dianne seems to have good judgement in

such matters. I don't think it will be too long before they will start a family but respect Diane is holding out for a house first

We will be going to Mexico at the end of April for our regular semi-annual trip. The news on the wheat crop is bad for the third year in a row. I am ready to buy another farm but have to wait until the right tract appears.

Please give my special regards to Jimmy. Hope all goes well for him in the construction business. He could be getting in at the right time. Everyone is looking for the construction industry to lead us out of the recession - and soon we hope!

Glad to hear Janet is doing better. We recently had a very nice phone conversation with her. We stay in touch with Pat by phone & letter.

Love
Phil

DEAR Phil & Salline,

Thanks for your last letter. It seems that my writing is only done when I have a clipping to send you. I find out each day just how much Ray "use to do" all correspondence was done by her. Maybe in time I can fill some of the gaps.

Did Ken take the new job? Lost your letter so not sure when this was to take effect. Any word from the newly weds? I would think if they're planning on a family that sooner would be better than later. "old folks" shouldn't have children or house pets."

Jimmy's job with city was terminated and he is back into construction - doing pretty good for this time of year. I'm still with the Post office - but this is getting lame - it's a full-part time job - 6 days a week. We have today off which helps - and they plan to give me one day a week off. Janet and Michael returned o.k. - still trying to get over the time difference.

Placed in Brief

clut of Lucy Virginia Crissam
 placed in her biofile.

18 JAN 1992

Dear Jim,

Thanks for the renewal on the UB for 1992 and for the clipping on Clarence Joseph Upchurch. Every clipping adds a bit of new information. You are the only one sending me clippings from the Raleigh papers and I appreciate it.

Sallaine and I ran away from home at Christmas and spent 5 days in Las Vegas - took in some shows and invested \$10.00 every day. It was quite enjoyable and a change of pace. We needed this as the fall had been quite hectic. Now we are gearing up for a lot of activities the next few months. Although there is a fair amount of pressure I can't complain. It is the sort of thing I bring on myself by proposing projects. Anyway it is still enjoyable and it is what I get paid to do.

The kids all seem to be doing well. Sallaine just talked to Nelda and learned that Ken is being considered for a Superintendent job at his company's mine in ELY Nevada. This would be quite a promotion for him but a challenge for Nelda and the kids as ELY is rather remote - about 5,000 people there.

Debby is doing well with her job at Monsanto with a lot of responsibility. It would be nice if Bob would go to work but the choice for him to be a "house man" is their choice.

Barry is settling into his new responsibility at the Merchants Bank following a reorganization last fall. He is still a VP but now reports as a special assistant to the Executive VP of the Bank. It is supposed to lead to a new job in two years. In the meantime he gets to probe into all parts of the bank on behalf of his boss who holds all the power in the system. Sounds like he could make some enemies in the process. Dianne has been promoted to Assistant VP. They are

looking for a house to buy in about 3-6 months. I suspect the putter putter of little feet will follow not long after that. Barry has now been admitted to the Missouri Bar and is a full-fledged Attorney. He has also been admitted to graduate school at St Louis Univ to pursue a PhD program in Business Management with an option in Business Ethics. He will do this at night.

I assume your Post office job will go back to parttime now that the Christmas rush is over. Maybe you can make your trip to Arizona. We drove through Sun City on the way to Las Vegas and on the way back and we thought of Nap and also David & Al but did not have time to stop. We hope to be up that way in due course & may be able to see them. In the meantime we would always be happy to see them here in Tucson.

Although you are in winter - spring is just around the corner - and it is always so beautiful in NC.

Do come -

Love
Phil Upchurch

MICHAEL ENTERPRISES

P. O. BOX 35804
TUCSON, ARIZONA 85740

26 OCT 1979

Dear Jim,

Since returning from St Louis in mid-September, Sallaine and I have been gradually getting on top of things. The problem is that "mod things" keep happening, there are a lot of projects at the University that require close attention and some evening and week-end work. I probably have my fingers in too many "pies". I had hoped to "slow down" and concentrate on a few favorite projects of my special library but that's not quite where we are now.

In any case I really appreciate the pictures you sent of the church and the memorial garden. When we next come to Raleigh I will look forward to a visit to the site. It looks beautiful. Thanks also for the photos of Tom & June & Hap & Betty. We have not heard from them but would be happy to. If not we can see Hap and Betty on one of our trips to Phoenix. I go up on business from time-to-time.

The newspaper clippings are much appreciated. Ferd McLaughlin, the seed expert, was a close friend of mine starting from our being in college together at N.C. State. He was a mighty fine person. The Outuary on W. Glenn Upchurch is very helpful and provides details I did not have. He is a descendant of Jubal Upchurch who was a brother of my GGGF Nathan Upchurch, I. At one time Jubal owned 2200 acres of land in Franklin Co, NC. His descendants have only gradually come to light. I plan to call some of the relatives mentioned in the article.

The cataract operation on my left eye was performed three days ago. So far everything seems to be doing well. I am taking it easy for a few days although the Dean did insist I sit in for him on a meeting with the President 24 hours after the operation. Today we have a visitor from Missouri. Gallweil will take him on tour and to the football game tonight. We play Miami of Florida (No 2 in the rankings) and will be lucky to keep the point

3-

spread under 50 points.

③

Bary & Dianne seem to be doing great. They did have a big shake-up at the Mercantile Bank where they work. The Trust Dept. where he is VP and Comptroller was dismantled and divided among operating units. Everyone was afraid they would lose their jobs and some no doubt will and there will be reassignments. Bary stayed very nervous for several days but now it looks like he may get a two-step jump out of the deal and be the right-hand man of the Senior Executive VP who holds all the power in the bank. Then in two years he would be in charge of his own line function. It will be several days before this is firm but as of now it looks good. It seems like a wonderful opportunity for him.

I imagine you are in the wonderful "fall period" of NC now. How I wish we could be there. You are fortunate to live in a great place. All the best and give our love to Jimmy.

Love
Phil

Dear Jim,
Just a note to thank you for
the clippings on Cousin Percy B. Perry
and Arney Upchurch. I knew Percy
fairly well when I was growing up.
He was kind to me on a number of
occasions. Wish I could have gone
to the memorial service for him.

We had a call from Pat Alspaugh
yesterday. They are quite concerned about
Bill's mother. She must be a tough person.
Pat is all geared up to come to Barry's
wedding. We talked to Barry & Braine
today. The 10 acres of land they are

to be in their hands until another
six weeks go by. It seems they uncovered
a 1949 easement that needs to be clarified.
Their purchase has been quite an experience
for them. My eye is doing great. Hope
you are hearing up with your pulltime
feels at the P.O. Love

26 JUN 1991

Dear Jim,

The Bible arrived in good shape along with the photographs & I am pleased to have these things for my archives. The pictures take me back a long time to grammar & high school days. I think I was 12 going on 40!

The article on the farm in Puerhuan County had me stumped for a while as they named the person Wade W. Upchurch whereas his name is actually Ward W. Upchurch. His sister name (JAN) allowed me to sort it all out. The city is offering them \$622,000 for the land and they want to preserve it as a learning center. They must have rocks in their heads. Besides their father only bought the land in 1949.

My eye seems to be doing fine. I can see color better now but my reading eyesight is still

-2-

(2)

marginal. They say it will improve over time. I can see at a distance reasonably well until I try to read a highway sign 200-feet away and then I realize my distant vision leaves something to be desired. I go back next Tuesday for my 3 week check-up, Thanks for the tip on the floating objects. I'll watch out for them.

Plans for Barry & Diane to marry on 14 SEP 91 are falling into place nicely. Why don't you come and help in celebrate. I could show you the farm as well. It looks like Barry & Diane have bought a ten acre tract of land at Wentzville - this gives Barry an hour's drive to work if they build on the tract.

Thanks again for the articles. I always get something useful out of them.

Love
Phil & Sallie

Dear Jim,

Thanks for the two articles - slits on James R. U & Charles G. U. Both are of the Nathan U, I Clan to which I also belong. I have never met James but over the last 2-3 years have had extensive correspondence with his sister Ann Smart who lives in FL. I met Charles several years ago at his home in western Wake County. The slit says he had 3 children but they are actually step-children. Anyway, the articles helped me by providing several facts not available earlier.

My eye seems to be doing fine. I went back to the Dr yesterday for my one-week check-up. He said come back in two weeks. I still have to wear the metal guard over the eye at night and put drops in twice a day. Still can't drive so I'll have to use a chopper. Also, still can't bend over.

Am trying to take some vacation for rest of month which I will otherwise lose.

5 JUN 1991

Dear Jim,

Thanks for your note of 29 MAY 1991 and the article on Avery Upchurch. I like to keep up with what he is doing. He will probably run for another office.

In my last letter to you I forgot to comment on the Bible which you mentioned in your earlier letter. I would like to have this if you are willing to dispose of it. Although it contains only a little of Mother's writing I would treasure it. I have very few of the things she touched so one more such item would be treasured.

Sallaine passed along to me the information you provided in your call yesterday about how one should behave after an eye operation. Your comments will be helpful. The operation has now been postponed until 12 JUN 91 because I have a cough.

All the Best:

Phil Upchurch

1 JUN 1991

Dear Jim,

I know Sallaine has just written about the upcoming excitement about Barry but I wanted to write especially to thank you for the two articles.

The Yates mill site does hold a lot of memories for me. I have made a small contribution to the restoration project this past year and hope they can preserve the mill for posterity.

The bit on Helen White holds promise of being very productive. With a little detective work I was able to make a good guess as to how she fits in. After 3 calls to Paley's I finally got to her daughter Mrs Philip K. Strobel (Joy) who is interested in family history but did not know much about her Lynch heritage. I have now also written to Joy and she promises to send much detail on the descendants of her GGP Bailey W. Lynch on whom I have only skeletal details (one of which is that his brother died in the Wake County Poor House!) I'll wait a while to share that gem with her.

Thanks to your help it looks like I have found a strong potential participant in Jay.

No plan to come to the wedding in Missouri on September 14, 1991 if you can. We would love to have you and Jimmy as well. As a honor I would show you Five Acres Farm and you might get to see a wild turkey or a wild deer.

Diane and Gary seem to be a well matched couple. She is a little quiet but really a sound, steady, take charge person. I think Gary searched until he found someone like his mother. Gary says he wants eight children but I think Diane is the kind who can gently correct his plan. I could use some more grandchildren but eight sounds a bit much.

Hope you get all the estate details cleared up soon. The hospital/doctor billings are very confusing to me. With my eye operation on 5 JUN 91 I'll get another dose of that confusion - but Sallaine will handle it.

Love
Phil

Enjoyed your letters in March/April.

Hope all is well with your family.

#

Hear that there may be an addition this fall. This info from Bill Ausgandy and confirmed by Janet.

Everything here is about the same - still trying to finish the estate business. Duke is the main problem - too much affirmative action in the past to be able to keep their records straight and the billings correct. Maybe this month will see an end to it.

Enclosing article on YATES Mill Restoration - ~~Have~~ thought you might have memories about it.

Helen White
Profile

Not sure about the "upchurch" orbit except that she was "white".

I have found an old Bible that your mother had - it only lists birth dates for her, you & your & Ray nothing else. If you would like it let me know.

Love
Jim

6 APR 1991

Dear Jim,

Thank you for sending both the old and the new photos. I was especially pleased with some of the old ones. We were certainly slim folks in those days. Somehow along the way it seems that my hair style has changed.

We have changed our residence to send the U.B. to Jimmy - which reminds me, I have to get busy & prepare an issue.

Your comment about Al serving as a consultant to Coors prompted me to call Al & Davis in Sun City, AZ. There was no answer so either they were out or are actually in CO at present. I suspect the latter from what you say. I have a good friend who is a VP for Public Relations at Coors - Swede Johnson. He is a great guy.

Barry now says he and Dianne may not come to WC this summer. He says they are saving to buy a house. That sounds serious to me. I am not sure what

other game plan² in but they seem to be having a lot of "togetherness". We will have to wait and see what happens. Maybe we'll learn when we are in MO 14-23 MAY. Over Easter Maune gave Gary some baby ducklings which he is keeping in his apartment until it is time to take them to the farm. Sounds messy to me. He and Maune are building a greenhouse of sorts at the farm. Today he called & said they were going to buy some catfish for the pond. Deb & Melda are fine or are all four of the grandkids.

We now have a new President of the University. He will show up 150L from Houston, TX. I think he will be ok.

Let me know of your travel plans. Our regards to Jimmy.

Sincerely yours
Phil Upchurch

DEAR Phil & Sallaine,

am enclosing some new & some old photos that I found recently. As I continue to go thru all of Ray's things, I'll send those pertaining to you. This will take a ~~bit~~ little time as it isn't an easy task for me.

Please note the change of name for the upchurch Bulletin. I thought it would be better if it were sent to Jimmy.

as is being considered ~~about~~ for Coors this year.

Tell Barry to give us a call when he is here and we have one bedroom available if he needs one and can stand our housekeeping.

I don't blame Sallaine about the car offer that trip to the Grand Canyon, as an engineer, I'm ~~so~~ surprised that you haven't been grounded by the STATE.

Looking Forward to Seeing you - my love to all the ~~the~~ children -

Jim

Dear Jim.

Thanks for the newspaper clipping on Thomas Upchurch Casseray, Sr who was killed in Raeford, NC. He was the son of an Upchurch female - part of the T. B. Upchurch enclave in Raeford. I never met Tom Casseray but he must have been a nice person according to the article. What a shame the end had to come so. He was to retire soon.

We have checked about the dark blue jacket and find that none of our Tucson or St Louis crew are missing such an item.

The story about Mable is sad. She was just about the same when we visited Frank in Charlotte in DEC of 1989.

We are making the final check on our income taxes today. As I write this Sallie is checking what the accountant has prepared. I hope it is all correct. When we started to work on the 90 taxes a few months ago we found the accountant had left.

off a \$4000 puttyes bill so we had to refile
 - Federal, Missouri & Arizona. Then it turned
 out the accountant made a mistake on
 the Missouri refile and they sued me
 and said we owed them \$3500 more.
 Now we have refiled on the refile.
 It gets more complicated all the time

We are looking forward to our trip
 to Missouri in a little over two months.
 We always push the Spring & Fall and leave
 the hot and cold weather to the residents
 there.

Our little grandkids are growing like
 weeds. They are now 4-9. We took Heather
 out for her 9th birthday recently. Nelda is
 doing quite well on her weight control.
 Betty is working very hard and Barry
 is counting a lot. Maybe we'll have
 a new brood of grandchildren in due course.

Our best to you and Jimmy

Sincerely yours
 Phil Upchurch

Talked with Lois STEFFREYS -

Frank, Jr. is caring for MABLE at home
at night by himself. He is really going
thru the mill - She is completely dependant
on for everything and cannot talk.

Dear Jim,

Thanks for the clipping on the 200 year old
Burt farm. A part of the Upshunks family was
living within a mile or so of this farm
150 years ago. I was surprised to find only a
few Burt family members in my files but
am happy to have this addition. Sooner or
later a Burt-Upshunks marriage will turn up.

We are a little late sending out the
AB order blanks, but as ordered. Thanks for
the reminder.

We are getting excited about our spring trip
to Missouri which will be 14-23 MAY this
year. At one time it seemed that Barry &
Baranne might be severe enough that we
would be going to Missouri for a spring
marriage but no such luck. They still seem
serious and I would not be surprised at
a marriage but who knows. At any

We are anxious to get back in May to see how the soil conservation measures are performing.

Your letter reminded me that we have not heard from Doug & Al this season. Our plane had been to go up to Phoenix to see them or to have them come down here for a visit. I'd have to call and learn if they actually made it to Arizona this year. Last fall Al was tied up with a fever and Dennis helping him to run a plant.

We are now in better shape in the wheels department having bought a new Grand Am Pontiac last week. In 1981 when we had it we was getting old and had no air conditioning that needed. You really need an air conditioner in a car here in the summer. The only problem now is Salamee want let me drive the new car.

We are looking forward to your trip - just let us know when
Sincerely yours
Phil Church
