Dear Map Information Office:

The members of the UPCHURCH family tree are researching the area of Virginia and North Carolina for historical reason.

So I would like to request a free Topographic Map Index Circular of the States of Virginia and North Carolina and a free folder describing topographic maps and any information that you think would help me in my job.

Cordially

Barry Upchurch

Kind words from folks who put my map books to good use in their business or travels.

REC 111
5 OCT 88

When I started County Maps 37 years ago it was because of my keen interest in maps. Over the years I've discovered that some people share that same kind of interest. Maps are probably one of the most useful things ever developed, and pound for pound, one the best bargains, too. Not only can a map help you get where you want to be, but maps are also one

of the best planning aids ever invented--especially on a cold winter night when you're thinking about next summer's trip. I try to give you the best maps I can and include whatever helpful information I can find. Here's what some of the folks who've used my maps think of 'em:

C.J. "Cy" Puetz

"The response to *Indiana County Maps* has been tremendous . . . send three more copies to my friends."

Muncie, IN

"I recently received your *Tennessee County Maps*. I'm extremely pleased with the entire book."

Springfield, IN

"*Ohio County Maps* is a very useful book and very accurate. I have used the one I already have quite a lot and am looking forward to another one as a birthday gift."

London, OH

"I want to order *Ohio County Maps* . . . we want to have it for Father's Day . . . we have one and love it . . . it's one of the biggest 'helps' we ever had."

Bellevue, OH

"I am a treasure hunter . . . and I have found your *Kentucky County Maps* most valuable. I am sending your name to a national coin hunting magazine . . . this is the first time I have recommended any company via a letter of this type."

Georgetown, KY

"I like (*Ohio County Maps*) so well I'm ordering *Pennsylvania County Maps* and *Ohio Fishing Maps*."

Cleveland, OH

"As a purchaser of both Ohio and Kentucky map books, I have found these invaluable in my work . . . please send me the Tennessee book."

Hendersonville, TN

"Could you send a list of the state county map books that are available? I have Ohio and Michigan and think they are great."

Troy, OH

". . . recently saw one of your map books for Ohio counties. I was impressed with the quality of the work."

Mantua, OH

"The maps (*Pennsylvania County Maps*) are very helpful since I'm in the real estate business. When clients call for directions . . . I can tell them exactly which roads to take, even the small side or county roads. Thank you very much for producing this fine map book."

Lancaster, PA

"*Kentucky County Maps* . . . is an impressive collection (of county maps and information) with each map fully detailed . . . anyone with a love of Kentucky would find this compilation a feast . . . especially for such a low price."

Woodford, KY

"I am finding your county map book (*North Carolina County Maps*) to be invaluable . . . so much so that I need another copy."

Durham, NC

"*Pennsylvania County Maps* has been very helpful to my husband and myself as we do much hunting and camping outside our county . . . it is also very interesting to read and learn about the animals and their habitats."

New Castle, PA

". . . I ordered a copy of *Ohio County Maps* and am well pleased with it. My co-workers at the county auditor's office wish to order six copies."

Circleville, OH
