As in all areas that experience growth, new schools are opening to meet the needs of a growing school-age population. Some Wake county schools operate on a traditional school-year calendar (Aug/Sept. through June), while others run on a multi-track year-round calendar (9 weeks on and 3 weeks off, 4 individual tracks where 3 tracks are simultaneously in session, 1 track is out). We encourage parents to visit the county school system's website, www.wcpss.net, for the most up-to-date information on districting, new school planning, and other vital information.
