

ROOTSWEB

DEATHS

There is an Internet Project known as ROOTSWEB in which a database is created by cooperators who use their code names. So far as I know the database consists of birth date & place & death date & place only. An alphabetical subject of this database is available and a download was provided to RPA in a letter 17 DEC 1999 from Charles John Peterson, for which see for a copy. It has been fully processed. It is also called "Rootsweb's world-wide project".
