Hi Sondra---

Delighted you found my website. I hope you had no trouble getting to and searching the three password protected sites where I have tons of Upchurch information posted. Let me know if you had any trouble getting the password.

I do not find you in my system although you may be there. I would love to know how you fit into the family. If you will send me a couple of names that connect you to earlier Upchurch generations, I will search my records and give you a report. It is important that we establish which of the 22 Upchurch Clans is yours as that way you can focus on aspects that are of greatest interest to you. Do let me have any questions you may have.

It would be a pleasure to hear from you.
Phil Upchurch

Thank you so much for your reply. I've been researching my family since 1979 when my husband and I moved to Salt Lake City where I took advantage of the huge genealogical library there.

My maternal line only goes back to John and Louisa (no maiden name) Rice (ggg grandparents) while my other lines can be traced back to 1500-1600. For that reason, I'm having my mtDNA tested in hopes of finding new information.

Last night my daughter found online my gg grandmother's (Sarah Jane Rice Henley) death certificate from Bollinger Co, MO which listed her birth site as Henry Co, TN and her mother as Louisa Upchurch. You can imagine our excitement. Then she found your website; she registered with you as Jennie Murray, and then I registered.

Funny thing is I'm from Cape Girardeau and grew up around Upchurch families never knowing I was also one.

So, our Upchurch connection is Louisa Upchurch, born ca. 1821 in NC. She had 4 children that I know of, all apparently born in Tennessee. I have found a possible father in Shadrack Upchurch, but not sure if that is correct.

I have to admit that I was overwhelmed with all the data you have collected and didn't know where to start. I believe, from perusing your documents that I may belong to the Wm IV line, but that is only a guess. I excitedly await any information you can find and again thank you so much.

Hi Sondra---

Your email brings great excitement and elicits angst on my part. It is exciting in that I want to do nothing more than spend 50 hours solving the problem you have presented. It brings angst because we are in the process of packing and temporarily storing my reference materials as we prepare to move to a new residence. The dislocation could last as little as three weeks or as much as three months. In the meantime I will work with you and Jennifer as best I can.

④ 6 MAR 2014 - CONTINUED

I have spent about three hours assembling materials to help me understand the prospects for your ancestor Louisa U. Born 1821 (NC) fitting into the Upchurch family. The answer is not yet clear and we must not jump to conclusions. Still, this is an exciting development and the solution will have significant meanings for your heritage but also for making the Upchurch story more complete.

We can say with 99% certainty that Louisa traces back to Michael U., I born in England about 1624. It is likely that she is a granddaughter of one of the 22 Heads of the Upchurch Clans who were of the fifth generation of the family in America. This would make her of the 7th generation. Of course I could be off by one generation but unlikely by two.

We know to think about your family in Missouri about 1850-1880 (dates to be refined) but before that we have to focus on TN. We can concentrate on the Weakley County/Henry County, TN area. In the 1800-1850 era there were representatives of several of the Upchurch Clans that arrived in that area, some to stay, some to move on. The William U., IV Clan, to which you refer, was represented by his son John U and this group has since had a major role in Henry, Co., TN. I know a huge amount about them and have visited the County. However, the hints I get leads me to believe that Louisa does not belong to the William U., IV Clan. While not a certainty I believe she more likely belongs to the Harmon U. Clan although other possibilities cannot at this point be ruled out. The Harmon U./James U., VI SubClan had representatives in the Weakley/Henry County area before 1850. I was able to establish that they moved on to SE Missouri where they have now had a long presence in Bollinger and nearby counties. I have visited this area as you can read in the posted UB issues. I know that this family had a Rice connection but more on that needs to be established, especially in view of what you report.

I will continue to build a working file on Louisa as time and circumstances permit. In the meantime it would be helpful if you would send me additional details that might have the slightest prospect of being helpful.

I would have a further request. I hope you and Jennifer will both become 2014 members of UAFA (website www.alliedfamilies.com) as all my work will now be carried out under that banner. I never charge for my help but we need our organization to be looked upon as a robust venture. Your help will be appreciated.

In Excitement~

8 MAR
2014

Phil, thank you for your initial research on my Louisa. Moving from home to home can be such a stressful experience - I've moved a lot in my life.

I'm so excited to learn more about Louisa's ancestors when you have your materials back and time to share what you know. I have attached a PDF file with my Rice/Upchurch information.

Until later,
Sondra Cotner Cook

Hi Cousin Sondra---

Thank you for the PDF on your Rice/Upchurch information. Our household is now dismembered with parts of it in four different places and somewhat disorganized as we continue our move to a Retirement Center. We no doubt have several weeks of confusion ahead but I will try to be as operational as possible. I have stolen time from transporting goods and preparing our villa for going on the market next Sunday to partially process your PDF. In the process I also looked up some of my sources and can give you an interim report.

CORNER PG3

⑥ 9 MAR 2014 - CONTINUED

To cut to the chase I am 90% certain that you are of the Harmon U./James U.,VI Subclan. This is based on circumstantial evidence and on my 40 years of studying all parts of the Upchurch family and in this particular case making use of the detailed research done many years ago by Truex U. and others and with me doing the synthesis (If you search the Upchurch Bulletin issues for the word "Truex" you should be led to some interesting aspects). Over time I hope you and I and Jennifer can refine and catalog the circumstantial evidence to validate my proposal.

There are many place and people names for Bollinger and nearby counties involving your Louisa U. b 1821 (NC) and the family of James U.,VI that cause me to immediately suspect that Louisa is linked to James U.,VI. Also, consider that our trail in earlier years takes us back to the Henry County, TN area. We need to get all aspects of this on paper. Beyond that is the fact that we have a 7 member household headed by a James U. (James U.,VI) in Montgomery County, NC in 1830 in which there is a slot for a female age 5-10 born 1820-1825 and thus an ideal candidate to be your ancestor Louisa. There is much more to be said about the records and I trust we can continue to collaborate on these matters. In the process several more of your ancestral lines should be uncovered. In our further exchanges it would be useful for me to have your mailing address and that of Jennifer as well.

With this information in hand I invite you to view the video on Harmon U on my website and of his ancestors back to Michael U., I.

Under our Allied Families program we propose to "enroll" the Harmon Upchurch family in order to have the record on he and his descendants well organized and available for all to view online with the idea of keeping the record updated and available long term. I hope you and Jennifer will join us in the effort with the first step being to become UAFA members for 2014.

Looking forward to our ongoing interactions.

To: Phil Upchurch <phil@upchurchstory.com>

Dear Phil,

I've searched the Upchurch Bulletins for family members in SE Missouri and think that my Louisa might very well be related. She and John Rice were in the Perry Co. MO 1850 census, then moved to Apple Creek, Cape Girardeau Co before the 1860 census. Apple Creek is not far from Daisy, CG Co where other Upchurch families lived. By 1870 they lived in Bollinger Co. Oldest daughter Sarah Jane Rice married Tom Henley in 1865 and settled in Bollinger Co which might explain their move there. I've never found any information on the other two Rice daughters beyond the 1860 census.

I haven't had a chance to view the videos yet, but should have time in the next few days. I look forward to learning more about the Upchurch family.

You asked for addresses:

Sondra Cook

Hi Sondra---

I was wrong about having a tree on Ancestry for the Harmon U. Family. I have just checked and we have 10 Trees up and another 15 on the drawing board with a goal of 50 trees by the end of 2015. Our staff member Jay Buck builds the initial tree. I will take the books for Harmon to my Valley office on Monday and ask Jay to put it at the head of the line. I takes a little while for Ancestry to vet what we enter and there is some delay before we get a tree to show up on our Allied Families website. However, I can invite you as a guest as soon as Ancestry admits that we have a tree for Harmon. Do you think there is some way you could help us build momentum for the enrollment of Harmon U. Family?

You asked about the Upchurch newsletters. I assume you mean the Upchurch Bulletin which I have published each year since 1980. I am now down to publishing one issue per year and the one for 2015 will be prepared this fall and it will be posted on our earlier website www.upchurchstory.com. All previous issues at there now and you can search them but it takes a little playing with the system to get good results. Just go to the website and follow instructions. If you will go to the first issue and just start scrolling down you will eventually come upon articles that pertain to the Harmon U. Family. This takes a little time but you can find interesting stuff. Let me know if you have any trouble.

Under Allied Families we issue a series of E-Newsletters. There is an overall one that goes to our entire contact list. I call this our omnibus Newsletter. We should soon start sending out E-Newsletters for my Harmon U. Contacts. We need more of these and if you can come up with some that would be great.

Best~

HI Sondra---

Many thanks for your renewal of your membership in Allied families for 2016 which arrived via PayPal. I assume you got the Harmon U. E-Newsletter we sent out yesterday--the first of many to come. We continue to add to our website and hopefully the Harmon Upchurch Family to which you belong will be enrolled in the year ahead . We have plenty of data.

In your Biofile I note a record of John and Louisa on the 1880 census in the home of their daughter Sarah J.. (Rice) Henley in Bollinger County, Mo. I assume you have or can locate this record. If not let me know.

It is not essential but I would like to have your full maiden name for my records.

If your situation is such that you can help us more with the Harmon Upchurch Family, please let me know.

SONDRA COOK
6439 W. ROXBURY DR.
LITTLETON CO 80128

Dear Cousin Sandra -

We are still heavily involved in working, but I am trying my best to keep up with family history. I have many family history projects underway but the prospects of getting Louisa Upchurch to 1821 locked into place is a high priority. of course I am counting on you and James being active participants

As a next step in our collaboration I provide herewith a copy of my Master Outline for the James U, IV Family in the Harmon U. clan.

This outline goes through the greatgrandchildren of James U, IV. The descendants (if any/ if known) of the greatgrandchildren are covered in continuation sections "C5" or shown on the left hand side of the pages. I am enclosing only C526, C527, and C528 (after the green sheet). Please do let me have inputs

To improve any part of this master outline, there is much that can be done. I assume you have details you can provide to me without too much trouble. So let me have your questions.

As a special aspect of our collaboration I hope we can assemble as much as possible in the way of hard or circumstantial evidence that shows that Louisa II was the daughter of James II VI. Please help with thinking this through.

Among the videos you will want to start with the one on Harman II.

I trust you will show all of this with generosity.

Best

Phil Upchurch
