Mattie E. Jones

Mattie E. Jones, 82, of Clayton, died Friday, March 3. Memorial service was 3 p.m. Sunday, March 5, at McLaurin Funeral Home chapel, Clayton. Burial was at the Amelia Church cemetery.

Surviving: daughters, Peggy Atkinson, Jonnie Boling and Sarah Cooper, all of Clayton; son, Edward Jones of Zebulon; brother, Jack Ryals of Kenneth City, Fla.; sister, Margaret Daughtry of Smithfield; nine grandchildren; 11 great-grandchildren.

JIMMY G RYALS

Zebulon Record THUR 13AUG1992 Zebulon, NC

Marine Lance Cpl. Bobby D. Freed, son of Jimmy G. and Debbie A. Ryals of Zebulon, recently received a Meritorious Mast.

Freed was cited for outstanding service while assigned with 10th Marines, 2nd Marine Division, Camp Lejeune.

A Meritorious Mast is an official recognition from a Marine's commanding officer for superior individual performance. It is issued in the form of a bulletin published throughout the command, and a copy is entered in the Marine's permanent service records.

The 1990 graduate of Zebulon High School joined the Marine Corps in April 1990.

RYLEY JOHN RYLEY (1)

See ltr 10 APR 1993 Robert Olney Edwards to RPH
He postulates the following relationship:

I. Charles Edwards b ca 1753 md ca 1775 Jane Lowe[2] d md 2nd 2 APR 1785 Newman Jackson

A.[1] Agus Thomas Edwards b ca 1765 (1776)

1. Weldon Edwards[3] b ca 1830 md Sarah - b ca 1836 d JAN 1874 (Warren Co, NC)
   a. Charles Edwards b ca 1852
   b. Paulin Edwards b ca 1856

B.[1] Green Edwards b ca 1777 (1778)

1) Bound in 1787 to William Doram to age 21
Bound in 1792 to John Ryley

2) Possible older sister or aunt of James Lowe b ca 1774

3) In home with Weldon Edwards in 1860 is Charles Edwards b ca 1848 who is presumed to be a brother or nephew of Weldon Edwards.

SPECIFIC CONTENTS OF LETTER:

I received your letter today. You raised the question, could James Edwards (High Sheriff of Wake County 1838-1847) be the brother of Weldon N. Edwards? First, I'll share what I have found on Weldon beyond 1850 census. I found him in 1860 census in Northwest Div. of Wake Co., as follows;

Weldern Edwards	30	M	miller	
Sarah	"	24	F	
Charles	"	8	M	
Paulin	"	4	F	
Charles Edwards	12	M		(must be younger bro. or nephew of Weldon)

1870 census index -
Found Weldon Edwards, age 40, listed in Martin Co., N. C.(no microfilm of 1870 census of Martin Co. in our local library)

Nov 1986 issue of N. C. Genealogical Society Journal, page 259, "Some Sampson Co., N.C. Marriages and Deaths" - item 5 - Weldon N. Edwards - - - - died at his home in Warren County recently. (from January 8, 1874 issue of The Clinton Reporter (newspaper published in Clinton, N. C.)

CONTINUED

(2)

The following is data I have found on a Thomas Edwards, who may be the father of Weldon Edwards:

1. Thomas Edwards filed an application for pension, based on his father's Revolution War service, on 20 May 1845. Thomas gave following information in application and/or at hearing-

a. Thomas was 68 years old when application was filed.

b. Stated he was only surviving child of Charles Edwards X Jane Low marriage. They married about 1775.

c. Charles Edwards, his father, died about 1784 at age 31, and was a Rev. War soldier.

d. Jane Low Edwards, his mother, married Newman Jackson 2 Apr. 1785, and several children survived from this second marriage.

2. In Wake County Pleas & Quarters Court minutes - R. 15 Aug. 1787 - Agus Thomas Edwards, about 12 yrs. of age, and Green Edwards about 10 yrs. of age, orphans of Charles Edwards, bound to William Doram (sp) to learn occupation of farming until age 21. 4 Jun 1787.

3. In Wake County Pleas & Quarters Court minutes, Sept. 1792. On application, order that Green Edwards and Thomas Edwards be bound apprentices to John Ryley until they attain age of Twenty one years being at this time of age to wit, Thomas - 16 years and Green - 14 years to be taught the occupation of planter.

Could this Thomas Edwards involved in the Rev. War pension and the two apprentice orders be Thomas Edwards, father of Weldon Edwards. His age in the pension application agrees within 1 year with his age in 1850 census record. I plan to check Thomas Edwards estate file when at Archives again. I am also interested in Charles Edwards X Jane Low marriage because I have a Low/Lowe ancester line in Wake County. I have traced that line back to James Lowe b. Ca.1774. This Jane Low may be his older sister or his aunt.

JUNE RYNOLDS

From ltr 26 JUL 2000 Melva Davis U to RPU - Pg 34 - originally from nee Betty Jane Dean who copied this family history for the William Wyatt Holland Family from a Heritage Book for Grayson Co, TX. See his Bio file for Text.

MERRY CHRISTMAS

Selma, Virginia
Dec. 3, 1999

Dear Cousin Phil,

Thanks for the letter of 29, Nov., 1999.

We love the internet, but my wife is the one that uses it. I only have one good hand to work with, so I don't get on it.

You can really kill time on the internet. It just flys by like the years of life after you turn fourty.

I was wondering if you have ever had the oppertunity o meet Pro. Ryscamp from Salt Lake City, Utah. He is a reasearcher also. He does research overseas and trains other people to do the research for him overseas.

We contacted him, but the prices he quoted are not for our pocketbook.

Do you have anything on John Wesley UpChurch, where he was in the Civil war? If not let me know and I will send you a copy from Alleghany Co., North Carolina.

As Always

John Perez

Subject: Upchurch Family newsletters
From: Judy Rysdon <indyjudy@nc.rr.com>
Date: Thu, Sep 14, 2017 10:40 am
To: Jay Buck <jaycbuck@gmail.com>, "<phil@upchurchstory.com>" <phil@upchurchstory.com>
Attach: The DNA project in Upchurch and Allied Families.docx
Biofile by clan.xlsx

Jay and Phil, I have been thinking about content for the 12 Upchurch family newsletters and went thorough the Biofiles that have been published on the website and divided them into those from the different clans, with the idea that they could be listed in the different newsletters with a link to the website. I have the information on a spreadsheet and the different clans could be extracted and placed in each newsletter with an introduction and suggestion that they may want to transcribe some biofiles. I know some are already working on them.
I also thought the introduction to DNA I wrote sometime ago

---

could be included in the newsletter or in a following one.

I don't have the email program or the mailing list so would need those before I can send out newsletters but if you wanted content you could use the material on the spreadsheet.

The DNA project in Upchurch and Allied Families

In recent years DNA has been recognized as an important source for the genealogist. It can verify the results found through traditional research. It can show if a family member is really who they thought they were and not adopted. It might show if a surname change has come about due to the assumption of the mother's surname and not the father's. It can estimate the relationship between two people who share portions of their DNA. And it is capturing the imagination of a whole new generation of researchers.

Surname changes, adoption, and misattributed paternity are surprisingly common and found in most families. It may have been hidden or forgotten; so undertaking DNA testing may turn up surprises. Caution should be advised. But as more and more of our genes are being understood, many of us may have them analyzed for medical purposes or just for fun to see what they can tell us. And research is being done at companies and universities all over the world to further our understanding of our genes. It is an explosive area of research.

Until recently genealogists had only used the male Y chromosome to do surname studies, and these are still a very big part of DNA research. This involves testing from 12 to 111 different sites on the Y chromosome of those sharing a common surname, and counting the number of short tandem repeats or STR's at those sites. The number of repeats should be identical at each site or there may be slight variations at one or more sites, depending on how many generations those with the same surname have been separated from a common ancestor. If there are a large number of differences it may also suggest that they do not descend from a common male ancestor at all.

The results also place the males in a larger category called the Y haplogroup, and surname studies often begin by determinating in which haplogroup the male belongs. Those in the same haplogroup are more likely to have a common ancestor, while those in different haplogroups are probably not related through the male line.

Another category of genetic testing is called MtDNA and involves the DNA that is contained in the little mitochondrial organelles that reside inside the cell but not in the nucleus. This can reveal the maternal line, because mitochondria are only inherited from our mother, not our father. The results can place us on a branching tree that has been established to show just when and how our ancestors migrated out of Africa some 50 thousand years ago. The branches of this family tree have been given letters of the alphabet, except for Bryan Sykes who gave the letters names and called them *The Seven Daughters of Eve.* These letters divide us into mtDNA haplogroups. Both men and women can establish their mtDNA haplogroup and it will trace the ancestral migration of their mother's mother's mother, etc.

Recently the genealogical testing companies have offered not just Y-DNA and mtDNA testing but also testing of the autosomal chromosomes; i.e., chromosomes #s 1-22 and the one or two X chromosomes that are inherited from both of our parents. Testing identifies variations at a single site on the DNA, i.e., whether it was a C or a T, or an A or a G, and the variations are called "single nucleotide polymorphisms" or SNP's, [pronounced snips]. When long enough segments on one or more of your chromosomes are identical to segments found on other people who have been tested, the people will show up as your "matches," and perhaps as your 2nd, 3rd or 4th cousins. We are discovering that we are somehow related to hundreds of "strangers" or distant family members with whom we are not acquainted.

For a traditional genealogist the effort has been to trace each generation back to the previous one and work his way back as far as the records would allow. The new generation of researchers begins with "matches" who are living cousins and tries to figure out how they are related. It is exciting to discover cousins we didn't know existed yet with whom we share a portion of our DNA. The emphasis becomes finding our "Most Recent Common Ancestor," or MRCA. DNA results may indicate these two people are likely 3rd cousins and therefore share a 2nd great grandfather. So now the researcher must look at their eight 2nd great-grandparents and trace their descendants to the present to determine how this 3rd cousin is related. It reverses the emphasis of traditional research. Tracing ancestors can be exciting when we discover a new one, but discovering a new living cousin means two people can be excited, and often their families, too. Sometimes they can share pictures or stories of long ago.

Tools are being developed to help us deal with the amount of data generated by our DNA. Genealogists are learning a whole new bag of tricks, and the various genealogy conferences are placing DNA near the top of their schedule of talks. Genealogical histories submitted for publication in journals are expected to include DNA results as one of the sources to substantiate their research, if at all possible.

So the Upchurch and Allied Families are now including DNA projects to support the previous research done by Phil Upchurch and others. An Upchurch Project will be established in Family Tree DNA for a Y DNA surname project. This will show how much Y-DNA variation there is within the UPCHURCH surname. There already is a Yates surname project at FTDNA and there may be projects for other surnames within Allied Families, or if necessary, other projects could be established. Because these projects are most successful if there are large numbers of individuals who join them, it makes more sense to join an existing project than to start a separate one of the same surname. There is already a Y- DNA project for those individuals who have Colonial North Carolina roots and it is recommended that Allied Family members who have been tested join that project.

Those who trace their lineage back in one area for a couple hundred years, like the Upchurch and Allied Families, are likely to share many portions of their DNA. **GEDmatch** *https://www.gedmatch.com/* is a website where test results from any of the testing companies can be downloaded, and using ID numbers, compare results with other family members and see exactly where and how much DNA two individuals share. There are enough tools available at that site to occupy those with any time to spend and a geeky mindset. Ideally we might be able to map the chromosomes and determine from whom some of the DNA was inherited.

New cousins discovered through matches at the testing companies and at GedMatch may wish to join the Allied Families and contribute time, energy and financial support to our mission.

JUDY RYSDON (9)

9 OCT 2017

Subject: Allied Family Plans
From: phil@upchurchstory.com
Date: Mon, Oct 09, 2017 5:35 am
To: "Judy-OM Rysdon" <judyrysdon@gmail.com>

Hi Judy---
I would like to coordinate with you re our upcoming trip. Would you give me a call on my land line (636)898-8516 when it is convenient.
Thanks for he newsletter drafts. I will talk with Jay about them this morning . They are excellent
Cheers~
Phil Upchurch, Manager, Allied Families

10 OCT 2017 - Notes of RH & JR & Phone Chat - 20 min - very cordial

- Thinks it best if we get a PO BOX
- Her only regret in Newsletter - she is open to payment - thinks we should discuss
- She will make a presentation on TIRVA
- She is available for our entire visit - need to follow up on hours
- Her heritage is in Wilkes Co, NC - would be interested in a field trip there. She knows the area. Also has relatives in Brunswick Co, VA
- No problem with my a Prayer Fountain. She will pray about if we did call us
- She will spend time with Jay
- Nancy also expects many
- Re room. She wants a coffee maker
- WCGG Group are meeting in 120 Stall
