

Commentary: Ambrose Upchurch was born in 1791 in North Carolina and died 1836 in Calloway County, KY. He was the son of David Upchurch and the grandson of William Upchurch IV, head of Upchurch clan # 9. William Upchurch IV had moved his family from Virginia to Granville County, NC, and then to Wilkes County, NC where Wm IV died in 1787. The family lingered for a few seasons in Wilkes County before moving on to Kentucky and Tennessee. The move of David's brother John V to Henry County, TN included a detour of a few years in Greenville County, SC. There is no evidence David took the SC trip. We find his son Ambrose in Warren County, KY where in 1819 he married Nancy Durnal. This Biofile helps to establish the places Ambrose and his father lived. With more study the full story should unfold.

The Kentucky Land Grants, Part I

Baltimore: Genealogical Publishing Co., Inc. 1971.

Kentucky Land Warrants:

In 1815 the Kentucky State Legislature passed an act relative to land distribution, and the records written in fulfillment of this statute are now known as Kentucky Land Warrants, 1816-1873. These grants consist of forty-three books and 25,621 grants. The Act of the General Assembly governing this group of grants opened for sale, at \$20.00 per 100 acres, all the vacant lands to anyone in Kentucky, except an alien. The method followed was similar to that originally employed by Virginia, the purchaser securing receipt from the State Treasurer which was in turn converted into a land office warrant, authorizing the owner to locate and survey a certain acreage. When this had been completed and returned to the land office, it was registered and a land patent was issued to the owner within about six months. This law, however, did not apply to lands west of the Tennessee River.

Grants west of Tennessee River

Following the acceptance of the treaty drawn by Andrew Jackson and Isaac Shelby with the Chickasaw Indians in 1818 and approved by Congress in 1819, the United States became the possessor of all lands lying between the Tennessee and Mississippi rivers in what is now both Kentucky and Tennessee. The Kentucky portion, oddly enough, became known as the Jackson Purchase and embraces McCracken, Ballard, Carlisle, Hickman, Fulton, Graves, Marshall and Calloway counties. These lands were opened up for settlement in 1820, the General Assembly appointing a surveyor to lay off this great boundary into sections and townships—a very fortunate provision. The records of this group has thus come to be known as Grants West of the Tennessee River, and are to be found in eleven volumes from 1822 to 1858. They compromise 8,713 grants.

Grants South of Walker's Line

A small group of grants known as the Grants South of Walker's Line were issued from 1825 to 1923. They are located as their title suggests, "South of Walker's Line," and north of the parallel 36 degrees and 30 minutes, a line which was accurately established in 1819 by Robert Alexander and Luke Munsell, following legislative appointment. Dr. Walker in running his line for the southern boundary of Kentucky in 1779-80 failed to establish the true parallel of 36 degrees and 30 minutes, his line falling variously from six to ten miles north of the true parallel. Since the old Walker line had been established as the southern boundary of Kentucky and covers a considerable distance, it will be seen that the lands indicated in these grants were really in Tennessee. To settle the matter, an agreement was reached in 1820 by the Commissioners selected by the Kentucky and Tennessee, in furtherance of which Kentucky was given the right to issue grants for all of the territory lying north of parallel 36 degrees and 30 minutes and east of the Tennessee River.
